Burns Po	int Ferry -	2020	Slip
----------	-------------	------	------

Slip program and scope of works - DRAFT

TAS	SK.	DETAIL
		Last Ferry run at 12:30am
Inst	all road closures	
	BSC sign crew	
		Install signs and barriacades for "road / ferry closure" traffic management plan
		Remove signs from around Ferry deck except UVI signs
Prep	pare Ferry	
	BSC EW crew	
		Remove all items from cabin (cash register, TV, PC, Albert machines, phone, iPad, IT docking stations, chair, mattress, paperwork, items in storage units, bins, fire blankets, fire extinguishers
		Remove all items from deck (grease gun, wheelie bin, bins, spill kit, fire extinguishers and pump
		Bag and seal CCTV cameras
		ananda any na ananany ana a a anan'isina ana
		Remove lights and light stands.
		Remove life bouys, life jacket boxes, kick panels, tender, oars and tender bouys
		Remove fire blankets and fire extinguishers from deck
	BSC Crew	la penangkan kanan terteman antiger sister, epistrationalizier opiser opisers eresse
	200 0101	Prepare Ferry for uncabling
		i roparo i orij to anoaomig
Ren	nove upstream cable	
	BSC crew	
		Vehicle(s) on South Ballina side to collect staff
		Position Ferry 10m from concrete ramp on Ballina side. Ramps lifted.
		Unbolt upstream cable from Ballina bank
		Undo clamps
		Feed cable back into roller blocks
		Place cable on deck (370m)
		Drive to South Ballina bank and clamp off blocks
		Tie off around pylon
Ren	nove downstream cable	
	BSC Crew	
		Tug attaches to Ferry on upstream side at Ballina end.
		Tug holds Ferry 10m from concrete ramp on South Ballina side.
		Unbolt downstream cable from South Ballina bank
		Undo clamps
		Feed cable back into roller blocks - take care through engine room area
		Place cable on deck (370m)
		Tie off around pylon
		Ferry moved to South Ballina ramp and all staff off Ferry
		Handover to tug operator
Tua	movement	
- 48	Contractor	
		Tug takes vessel upstream to slipyard - push off on peak high tide
		Tug takes vessel past Swan Bay ramp and hooks back around to ramp
Swa	n Bay slipyard	i
	Contractors	
	~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~	Tug to direct Ferry onto ramp trolleys - ensure trolley not under engine in area for replacement
		Tug operator to handover Ferry to Swan Bay slipvard
		Pull Ferry up onto ramp trolleys
		Winch trolleys up ramp to turn table

Burns Point Ferry - 2020 Slip

Slip program and scope of works - DRAFT

AV	TASK	DETAIL
7	1 ASK	
	Hull works - Swan Bay site	
	Contractor	
		Naval Architect and steel thickness testing
	BSC Crew	
		Cut out plate or sections
		Replace walkway legs
		Install repaired handrail
		Install new anchor mounting point (and chain storage)
		Remove 4 lifting beam mounting points
	Contractor	
		Line bore lugs on hull
	Ramp works - external site	
	Contractor	
		Replace tips
		Replace bisalloy wear plates
		Replace bushes
8	It does for a first star	
	Hull works - Swan Bay site	
	BSC Crew	
		Weld temporary lifting points inside hull (top and bottom)
		Sandblast bottomside of flat bars
		Position new plate or sections into place
		Weld plate into place or sections into place
		Install 4 new lifting beam mounting points
		Replace ORTAC on overflow tank and engine block
		New brass fitting on heat exchanger - adaptor
		Check hydraulic leak - oil filter housing (hydraulic tank)
		Reconfigure engine room - remove batteries and install new housing and ventilation
