# 1. PRELIMINARY

## INTRODUCTION

The Ballina Shire Plan of Management for Community Land (POM) provides a framework for how recreational and open space resources managed by Council, such as the parks, natural areas, sporting fields and community/cultural facilities can be used by the public.

The *Local Government Act 1993* (LG Act) requires all Council-owned land, and Crown reserves managed by Council to be classified as either ‘**community**’ land or ‘**operational**’ land. Public land classified as ‘community’ land is required to be managed and used in accordance with an adopted Plan of Management under the LG Act.

This POM updates the Ballina Shire Council Plan of Management for Community Land 2015 and incorporates Crown reserves managed by Council and classified as ‘**community**’ land under the LG Act, excluding coastal Crown lands which make up the Ballina Coastal Reserve.

## PURPOSE

The purpose of this POM is to:

- Provide a framework for the future development, use and management of the community land.
- Ensure compliance with the *Local Government Act 1993* and the *Crown Land Management Act 2016* (CLM Act)
- Provide for the management of public land for the social, cultural, educational and recreational needs of Ballina Shire;
- Categorise community land based on the predominant and expected use of land in accordance with the requirements of the LG Act and CLM Act.
- Manage the use of community land to ensure it is consistent with the specified core objectives applicable to each community land category.
- Enable, where appropriate, commercial activities on community land where these activities are consistent with applicable management provisions and statutory requirements.
- Provide appropriate maintenance and embellishment of community land within Council’s budgetary constraints and community expectations.

# DEFINITION

## WHAT IS A PLAN OF MANAGEMENT?

A Plan of Management is a tool that provides direction and continuity for the planning, resource management, maintenance, operation and programming of community land. A POM outlines the land's features and enables management of the land to proceed in an efficient and sustainable manner. It also helps to reconcile competing interests, identifies priorities for the allocation of available resources and facilitates public understanding of these resources.

Periodic revision of a plan of management also enables changing social, economic and ecological conditions to be taken into account as they arise and where necessary, the plan can be amended to reflect these changes. A POM is required to be prepared for public land which is owned or managed by a Council and classified as community land under the LG Act.

Plans of Management are also prepared for Crown Land under the Crown Land Management Act 2016, with section 3.23(6) of the Act stating that POMs for Crown Land are to be prepared and adopted in accordance with the provisions of the LG Act.

### LAND COVERED BY THIS PLAN OF MANAGEMENT

This POM applies to land that is classified as “community land” for the purposes of the LG Act which is owned or managed (in the case of Crown owned land) by Council. The details of all community land to which this plan of management applies, including details of the of the land and whether special provisions apply, is contained in Council’s Land Register. A copy of the register at the time of adoption of this Plan of Management is contained in Appendix 1.

Council’s interactive Land Register and mapping can be viewed on Council’s website [ballina.nsw.gov.au/land-register](http://ballina.nsw.gov.au/land-register).

The interactive Land Register should be referred to when considering the management and use of land under this plan.

### LAND **NOT** COVERED BY THIS PLAN OF MANAGEMENT

Land that is not covered by this POM includes:

- land covered by the Ballina Coastal Reserve POM
- privately owned land which is made available for public use.

## REVIEW OF THIS PLAN

Plans of Management are reviewed often by Council due to the process of classifying and categorising land. This plan will be reviewed on an as needs basis.

## FUNDING

Council funds new works on community land from a number of sources, including rate revenue, loans, federal and state government grants, and for some locations from, developer contributions. Some works are funded by tenants, either using their own funds or grant funding.

Council’s ongoing commitment to development and the maintenance of community land will depend upon its financial resources. The implementation of actions identified in this POM will proceed as determined through Council’s 10 year Community Strategic Plan, 4 year Delivery Program, annual Operational Plan, Long Term Financial Plan and annual Budget.

# LEGISLATION

This section explains the legislative requirements for this Plan of Management under the *Local Government Act 1993*, the *Crown Land Management Act 2016* and local policies.

## LOCAL GOVERNMENT ACT 1993

The Local Government Act 1993 requires all public land to be classified as either Operational or Community land. Land classified as 'community land' must be further categorised. This is demonstrated in Figure 1. Public land can be land which is owned by the Council, and Crown land which is managed by the Council.

The LG Act allows for one or more areas of community land to be covered by a single POM. These POMs are referred to as generic POMs. However, some lands may cover significant areas of community land, and may be managed by a site specific Plan of Management.

The LG Act specifies the core objectives for the management of each category of community land. POMs do not replace other existing legislation, policies or procedures relating to the approval of activities or development on the land. This Community Land POM must be in place by 30 June 2021.

## OPERATIONAL LAND

is classified as such in accordance with the requirements of the LG Act. Land classified as operational land is usually not intended for use by the general public. It may include land held or managed by Council as a temporary asset or as an investment, land which facilitates the carrying out by Council of its functions or land which may not be for the use of the general public, such as a works depot or drainage reserve. Council is able to deal with this land without restrictions under the LG Act. Council may deal with operational land in the same manner as any other person may deal with private freehold land.

## COMMUNITY LAND

is land which is dedicated for use by the general public. Community land may include a wide variety of properties, ranging from small recreation reserves to large parks, and in some instances buildings. Community land supports important aspects of community life, and is valued and appreciated by residents, workers, and visitors to Ballina Shire.

Community land is defined as a public place under the provisions of the LG Act.

Community land is characterised as being land that:

- Is retained for community use
- Cannot be sold
- Cannot be leased for more than 21 years
- Cannot be leased unless public notice is given, and
- Can only be used for purposes which are consistent with a plan of management.

# LEGISLATION CONT.

## CROWN LAND MANAGEMENT ACT 2016

This Plan of Management has been prepared according to the requirements of the Crown Land Management Act 2016 for Council managed Crown reserves which are classified as community land and categorised under the LG Act.

The *Crown Land Management Act 2016* (CLM Act) authorises local councils appointed as Crown Land Manager to classify and manage its dedicated or reserved Crown land as if it were public land within the meaning of the *Local Government Act 1993*.

Dedicated or reserved Crown land may be used only for the following purposes:

- the purpose for which it is dedicated or reserved
- any purpose incidental or ancillary to a purpose for which it is dedicated or reserved
- any purpose specified in a Plan of Management for the land
- any other purposes authorised by an Act.

However, Council may grant short-term licences over dedicated or reserved Crown land for any prescribed purpose under section 2.20 of the CLM Act. Generally, when managing dedicated or reserved Crown land, and for the purposes of this Plan of Management, Council:

- a) must manage the land as if it were community land under the Local Government Act 1993, and
- b) has for that purpose all the function that a local council has under that Act in relation to community land (including in relation to the leasing and licensing of community land).

Council must also manage Crown land in accordance with Part 8 of the CLM Act in relation to native title.

## PRINCIPLES FOR CROWN LAND MANAGEMENT

The CLM Act sets out the requirements for how Crown land is to be managed and the roles and responsibilities of both councils and land users. Council, as a Crown land manager, needs to consider environmental, social, cultural heritage and economic factors when making decisions about how Crown land will be managed, to benefit the community.

The CLM Act sets the following principles for the management of Crown land:

- a) that environmental protection principles be observed in relation to the management and administration of Crown land, and
- b) that the natural resources of Crown land (including water, soil, flora, fauna and scenic quality) be conserved wherever possible, and
- c) that public use and enjoyment of appropriate Crown land be encouraged, and
- d) that, where appropriate, multiple use of Crown land be encouraged, and
- e) that, where appropriate, Crown land should be used and managed in such a way that both the land and its resources are sustained in perpetuity, and
- f) that Crown land be occupied, used, sold, leased, licensed or otherwise dealt with in the best interests of the State consistent with the above principles.

The Draft of this POM will be advertised and publicly exhibited for a minimum of 28 days as required under both the LG Act and the CLM Act. Submissions will be accepted until the advertised date. Appropriate amendments arising from the submissions will be considered in the proposed final plan. The submissions and proposed final plan will be appended to a report to Council for consideration and adoption.

## **LEGISLATION AND STATUTORY CONTROLS**

This POM does not over-rule existing legislation that also applies to the management of community land. Other state and local legislation and policies, such as relevant State Environmental Planning Policies and Council's Local Environmental Plan and other strategies are to be considered in the management process.

## **LOCAL ENVIRONMENTAL PLAN**

The Ballina Local Environmental Plan 1987 and the Ballina Local Environmental Plan 2012 (BLEP) aim to provide for a sustainable Ballina that recognises and supports community, environmental and economic values. The plans aim to establish and maintain a built environment that contributes to health and wellbeing with a healthy natural environment and diverse and balanced land uses. The BLEP establishes how land in the Shire may be used. Activities that are considered permissible under the BLEP may be permissible on community land depending upon the categorisation of the land.

Activities proposed to be undertaken on community land also need to be consistent with the requirements of this POM and other relevant plans as well. The BLEP is amended on a regular basis, and any amendment to the BLEP shall take precedence over the provisions of this POM.

## **COUNCIL PLANS, STRATEGIES, POLICIES AND PROCEDURES**

This POM is to be used in conjunction with the appropriate Council plans, policies and procedures that govern the use and management of community land and any facilities located on such land.

Documents that may need to be considered in the planning and management process can be found on Council's website. Additional Council plans, strategies and policies adopted after the date of this plan with relevance to the planning, use and management of community land, will apply as though they were in force at the date of adoption of this POM.

# APPROVALS, LEASES, LICENCES AND NATIVE TITLE

In most cases, to use Community Land, approval must be obtained by Council as the land manager. To use the land on a more frequent basis, it may be necessary to obtain a lease or licence. This is to ensure that the proposed activity can meet the core objectives of the management of the land and is in accordance with relevant Ballina Shire Council policies including the *Community Property Leasing and Licencing policy*. Section 68 of the LG Act specifies certain activities on community land that require Council approval.

## WHAT ARE LEASES, LICENCES AND OTHER ESTATES?

Section 46 of the LG Act sets out when a lease, licence or other estate in Community Land may be granted.

Leases and licences permit groups to undertake certain activities on public land, and provides a clear and transparent way of identifying the permitted activity. The main difference between a lease and a licence is that a lease permits the exclusive use of the area, and a licence is a more flexible arrangement. Licences may be granted to formally recognise and endorse shared uses.

Short term licences and bookings may be used to allow the Shire to program different uses at different times, allowing the best overall use.

An estate may include a formal or official recognition of interest, right, title or claim for the use and/or occupancy of an area of land.

licences, other estates and development, this express authorisation is for the purposes of the LG Act and the CLM Act. Council's Native Title Managers advice will still be required for the grant of any leases, licences or other estates on crown land managed by Council.

Future development of crown land managed by Council will need to be considered at the time of the proposed development in accordance with the *Native Title Act 1993* (Cth).

## AUTHORISATION OF LEASES, LICENCES OR OTHER ESTATES OVER COMMUNITY LAND

For reserves on Crown land managed by Council, a temporary licence may be granted by Council for purposes in accordance with the CLM Act. For all other community land, for a lease or licence to be granted, express authorisation needs to be given in this POM. The LG Act provisions generally restrict the granting of a lease, licence or other estate over community land to those uses providing for a community service or public purpose. Parcels of land with special provisions can be found in Chapter 4. It is important to note that some activities, even with agreement from Council, will require the production of other plans such as a Traffic Management Strategy. Some uses may also require development approval.

The proposed grant of a lease or licence over Crown land may be subject to Council's Native Title manager issuing written advice that the proposed lease or licence complies with the applicable provisions of the *Native Title Act 1993*. If the proposed lease or licence does not comply with the applicable provisions of the *Native Title Act 1993*, Council may not be able to grant the lease or licence.

## NATIVE TITLE MANAGER REVIEW AND ADVICE

It is a requirement of section 8.7 of the CLM Act that advice from Council's Native Title Manager is provided at the time of the preparation of the Draft Plan of Management and finalisation of the Plan of Management. This advice addresses the effect the adopted Plan of Management would have on native title over the land included in this Plan of Management.

It is important to note that although this plan of management expressly authorises certain leases,

## EXPRESS AUTHORISATIONS OF LEASES, LICENCES AND DEVELOPMENT

The following table details the licences, leases, other estates and developments that this Plan of Management expressly authorises on land subject to this plan.

**TABLE 1 AUTHORISED SCALE AND DEVELOPMENT**

	PURPOSE/USE	EXPRESS AUTHORISATIONS AND SCALE OF DEVELOPMENT
LICENCE	Events	Grant of licences for events on any Council owned or managed public land. Council will make an assessment on suitability based on relevant Council policies.
	Markets	Grant of licences for markets on any Council owned or managed public land. Council will make an assessment on suitability based on relevant Council policies.
	Commercial activity	Council is expressly authorised to grant licences for commercial activities on any Council owned or managed public land. Council will make an assessment on suitability based on relevant Council policies.
	Filming	Council is expressly authorised to grant licences for filming on any Council owned or managed public land. Council will make an assessment on suitability based on relevant Council policies.
	Leases and Licences	Leases and licences over the land are authorised for purposes as outlined in the Act.
DEVELOPMENT	Structural works	Development authorised for structural works to community facilities where required, either for improvements to operational effectiveness or safety purposes. This may include retaining/revetment walls.
	Temporary installations	Temporary installations, such as art or recreational, are expressly authorised in accordance with adopted Council plans, policies and approvals. Works may include: <ul style="list-style-type: none"> <li>● installation</li> <li>● display</li> <li>● removal of installation following agreed period of time.</li> </ul>
	Building and surrounds maintenance	General building and surrounds maintenance works are authorised for community facilities.
	Easements	Easements are authorised over the land for the purpose of providing pipes, conduit or other connections under the surface of the ground. This is limited to easements that connect premises on the ground to an existing water, sewer, drainage or electricity facility of Council or other public utility provided that it is situated on the land.
	Drainage and stormwater infrastructure	Works necessary to manage drainage and stormwater infrastructure are authorised. This may include: <ul style="list-style-type: none"> <li>● work on kerbs and guttering</li> <li>● pipes and pits</li> <li>● basins</li> <li>● ponds</li> <li>● open drains</li> <li>● swales.</li> </ul>

# APPROVALS LEASES, LICENCES AND NATIVE TITLE CONT.

	PURPOSE/USE	EXPRESS AUTHORISATIONS AND SCALE OF DEVELOPMENT
DEVELOPMENT	Emergency water and waste water works	Works necessary to respond to a water or waste water emergency are authorised. This may include: <ul style="list-style-type: none"> <li>● access</li> <li>● clearing over infrastructure</li> <li>● excavation (vacuum excavation)</li> <li>● corrective actions</li> <li>● de-contamination</li> <li>● filling</li> <li>● restoration.</li> </ul>
	Maritime infrastructure	Development authorised for marine infrastructure and maintenance, including the construction and maintenance of boat ramps, jetties, wharves and pontoons including associated piles and moorings
	Track and access management	Development as authorised in accordance with Council's adopted Bushfire Risk Management Plan and other relevant plans and policies, which may include: <ul style="list-style-type: none"> <li>● vegetation clearance pruning and removals</li> <li>● fencing repair/installation/maintenance</li> <li>● signage repair/placement.</li> </ul>
	Community facility improvement	Development for community facility and infrastructure construction or maintenance identified as exempt development or development that can be carried out without consent in accordance with <i>State Environmental Planning Policy (Infrastructure) 2007</i> , or <i>State Environmental Planning Policy (Exempt and Complying Development Codes) 2008</i> , including: <ul style="list-style-type: none"> <li>● walking tracks, raised walking paths (including boardwalks), ramps, stairways or gates</li> <li>● bicycle-related storage facilities, including bicycle racks and other bicycle parking facilities (except for bicycle paths)</li> <li>● handrail barriers or vehicle barriers</li> <li>● ticketing machines or park entry booths</li> <li>● viewing platforms</li> <li>● sporting facilities (such as goalposts)</li> <li>● play equipment</li> <li>● seats, picnic tables, barbecues, bins, shelters, shade structures</li> <li>● portable lifeguard towers</li> </ul>
DEVELOPMENT (VEGETATION MANAGEMENT)	Vegetation regeneration and management	Vegetation management on public land is authorised in accordance with adopted Council plans, policies and approvals. This may include: <ul style="list-style-type: none"> <li>● Native vegetation protection measures</li> <li>● bush regeneration</li> <li>● weed control</li> <li>● plantings</li> <li>● erosion control</li> <li>● fencing protection</li> <li>● volunteer Landcare labour</li> <li>● digging weed roots/rhizomes</li> <li>● digging fence/post holes.</li> </ul>
	Tree Safety	Works to ensure tree safety on public land is authorised in accordance with adopted Council plans, policies and approvals. This may include: <ul style="list-style-type: none"> <li>● inspections</li> <li>● tree hazard pruning and removals</li> <li>● fallen and clearance branch/tree removals off tracks and felling dead trees.</li> </ul>
	Public reserve maintenance	General public reserve maintenance is authorised. This may include: <ul style="list-style-type: none"> <li>● grass mowing</li> <li>● trimming and weed control</li> <li>● vegetation pruning, plantings and removals, repair</li> <li>● vegetation re/construction, sediment accumulation.</li> </ul>

# FUTURE USE AND DEVELOPMENT

## HOW CAN COMMUNITY LAND BE USED?

Future use of the community land will need to:

### 1. Meet legislative requirements

The zoning tables in the Ballina Local Environmental Plan 2012 and the Ballina Local Environmental Plan 1987 specify the range of uses and activities that may be permitted on the land. A number of the uses are also set out in the Regulations to the *Local Government Act 1993*.

### 2. Be consistent with the guidelines and core objectives of the community land category

Under the *Local Government Act 1993* uses and development of community land must be consistent with the guidelines for categorisation and the core objectives of each category, and any other additional objectives the Council proposes to place on the community land categories. Guidelines and core objectives are demonstrated for Natural Areas in Table 2 and for General Community Use, Parks and Sportsgrounds in Table 4.

### 3. Be consistent with relevant Council policies

Relevant Council policies can be found on Council's website [ballina.nsw.gov.au/council-policies](http://ballina.nsw.gov.au/council-policies). The outcomes of this POM have been guided by the goals and strategies in the relevant policies. Council's policies will continue to develop after the preparation of this POM. Management of the Shire's assets and their development will take into account the policy framework at the relevant time.

## FUTURE DEVELOPMENT

Future development will need to meet the three requirements listed above, as well as be expressly authorised as a permitted use under this plan (via express authorisation, special provisions or Chapter 5).

Substantial upgrades and proposed new development will take into account a range of factors, including:

- This POM and the core objectives for the land
- The planning controls for the land
- The Shire's adopted policies
- The characteristics of the land affected, including existing and future use patterns
- Any masterplan for the land.

Minor changes to Community land are made on a routine basis, such as garden beds being replanted and the replacement of damaged play equipment. These types of works are addressed in Table 1.

## USES AND AGREEMENTS

Council may from time to time enter into or create a range of leases, licences, other estates, management agreements, and/or booking arrangements, in order to encourage the use of the land and/or buildings appropriately and effectively. These arrangements are intended to support and encourage a range of uses, which enhance the level of activation and enjoyment of the space.

Kiosks, restaurants, refreshment facilities or mobile vending may support the general community enjoyment of the areas. Each proposal will be reviewed to ensure it is compatible with the core objectives of the land and is permitted under relevant policies.

# BASIS OF MANAGEMENT

## CATEGORISATION OF COMMUNITY LAND

The LG Act requires all community land to be categorised as one or more of the following:

- Natural Area
- Sportsground
- Park
- General Community Use
- An Area of Cultural Significance

An individual land parcel may comprise two or more categories (e.g. Natural Area and Sportsground). Refer to Appendix 1 for land register information, and the accompanying maps in Appendix 2 for category locations where land parcels have multiple categories assigned. For such parcels, each area is to be managed under the relevant provisions of the category assigned to that area.

Land that is categorised as a natural area is to be further categorised as one or more of the following:

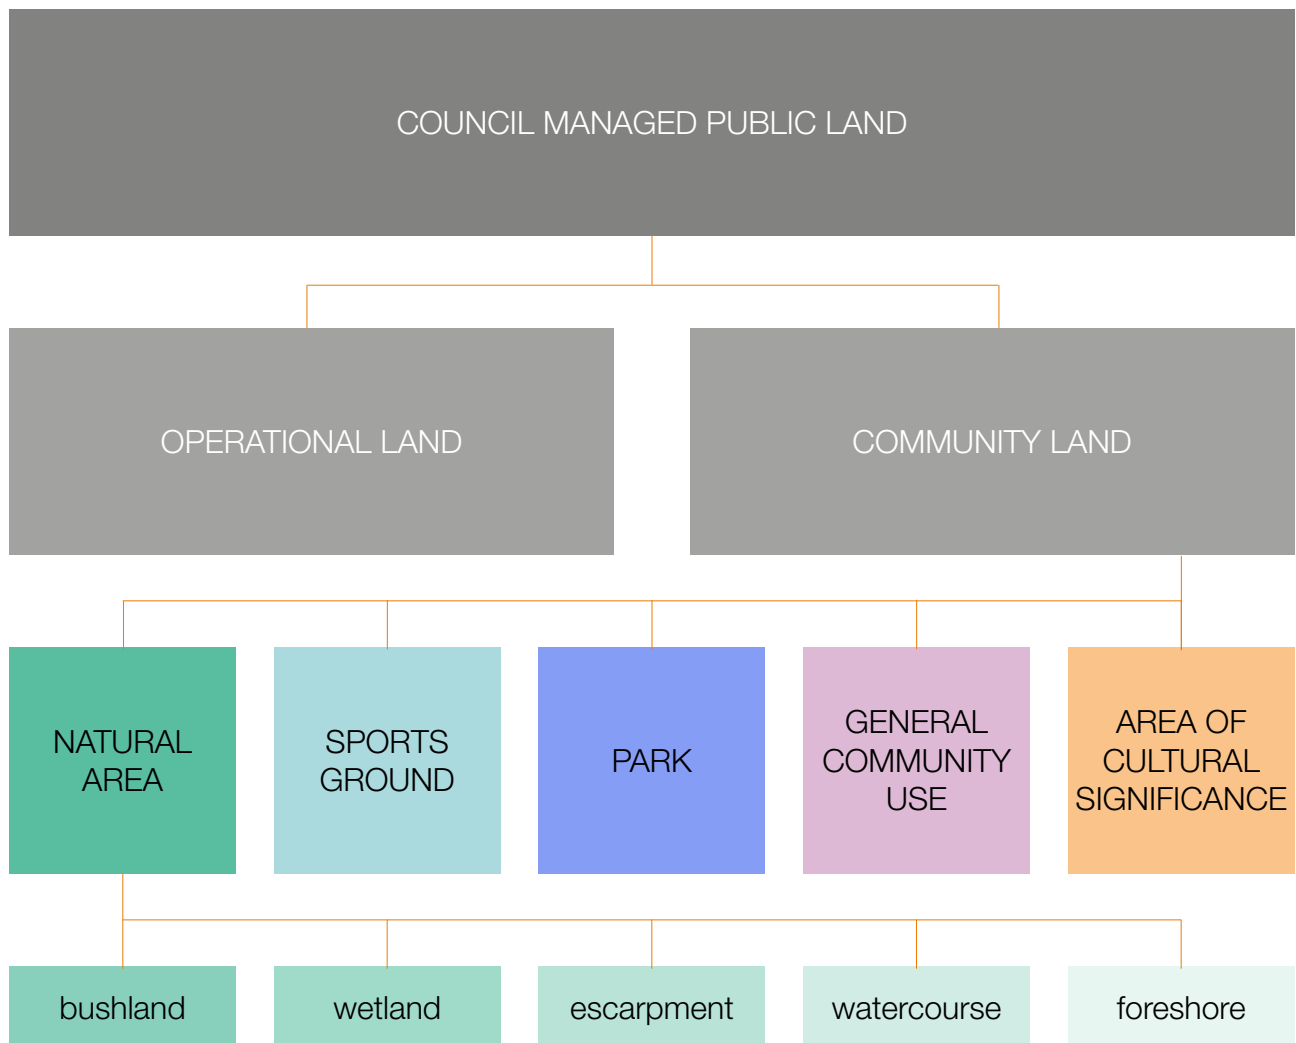

- Bushland
- Wetland
- Escarpment
- Watercourse
- Foreshore
- A category prescribed by the regulations.

The categories reflect land use and/or the physical characteristics of the land. Categorisation allows the Shire to focus its attention on the dominant character of the land, and the operational management of the asset.

FIGURE 1 CATEGORISATION

The guidelines for categorisation of community land are set out in the *Local Government (General) Regulation 2005*. The core objectives for each are set out in the *Local Government Act 1993*. The guidelines and core objectives for Natural Areas as well as General Community Use areas are set out in Chapter 2.

Council must manage Community land according to these core objectives. Any activities on or uses of the land should be consistent with the core objectives for that category and sub-category of land. The way Council will assess its performance managing community land in accordance with the core objectives of each categorisation is set out in the Performance and Assessment Table 4 in Chapter 3. All community land, regardless of categorisation must be managed in accordance with Table 4.

## 2. GENERAL PROVISIONS

There are two main ways in which community land can be used. In natural areas, the priority of Council is to generally protect and maintain these areas. In more general use areas, which includes the Sportsground, Park and General Community Use area categorisations, there is more opportunity for Council to grant leases or licences to the community.

### NATURAL AREAS

Our community depend on the local environment and the biodiversity it holds not only for a beautiful place to live, but also for a vast variety of services including agriculture, fisheries and recreational activities. Historical land uses and ongoing threats from land clearing, development, climate change and a number of other impacting processes, have left the Ballina Shire region with only 20% of its extant vegetation and put strain on a number of critical ecosystem services (North Coast Region Working Group, 2016). Ballina is home to an array of unique and threatened flora and fauna, stretches of incredible coastline and some of the last remaining patches of Big Scrub Rainforest in NSW. It is crucial that these invaluable environmental assets are protected in a bid to preserve ecosystem functions and build resilience against anthropogenic climate change.

Our region supports over 40% of the NSW threatened species and around 20% of the Endangered Ecological Communities (EECs) in NSW, making it an incredibly valuable part of Australia for biological conservation (North Coast Region Working Group, 2016). Ballina is home to 86 endangered and critically endangered species of flora and fauna which may occur on community land, including a nationally significant koala population.

Additionally, historical land uses and ongoing threatening process mean over 80% of Ballina's pre-settlement vegetation is gone, and only small, fragmented patches remain (North Coast Region Working Group 2016). It is important that our use of community land in Ballina Shire preserves and maintains our natural areas, so they can be enjoyed by our community now and into the future.

### KEY ISSUES

The diverse array of environments in Ballina Shire contain at least ten state Endangered Ecological Communities (EECs) making ecological conservation important for our local government area.

It is a shared obligation of Ballina to manage and limit adverse impacts to these communities and aim to preserve and enhance environmental values that support ecosystems in the Ballina Local Government Area. Many of the ecological communities throughout Ballina are under threat due to:

- Land conversion and clearing
- Historically poor land practices in agriculture
- Pollution
- Fire threats
- Invasive flora and fauna species
- Alteration to natural flow regimes in waterways
- Anthropogenic climate change

These threats directly relate to the decline and subsequent listing of entire ecosystems in state and federal threatened species legislation. These Endangered Ecological Communities - spread across almost every landscape and broad vegetation type in Ballina - serve as a reminder that plant communities currently not listed for protection may be at risk of these persistent threats.

### OBJECTIVES FOR THE USE OF NATURAL AREAS

Land which is categorised as a Natural Area is further categorised. The guidelines and core objectives for the Bushland, Wetland, Escarpment, Watercourse and Foreshore areas are set out in Table 2. Community land which is categorised as Natural Area must achieve the core objectives of Natural Areas, as well as the relevant subcategory.

table 2 GUIDELINES FOR AND CORE OBJECTIVES OF COMMUNITY LAND CATEGORISED AS NATURAL AREA: BUSHLAND, WETLAND, ESCARPMENT, WATERCOURSE, OR FORESHORE

CATEGORY	GUIDELINES <sup>1</sup>	CORE OBJECTIVES <sup>2</sup>
NATURAL AREA	The land possesses a significant natural feature that can be further categorised as bushland, wetland, escarpment, watercourse or foreshore. The land may be disturbed or pristine.	<ul style="list-style-type: none"> <li>a) To conserve biodiversity and maintain ecosystem function in respect of the land, or the feature or habitat in respect of which the land is categorised as a natural area, and</li> <li>b) To maintain the land, or that feature or habitat, in its natural state and setting, and</li> <li>c) To provide for the restoration and regeneration of the land, and</li> <li>d) To provide for community use of and access to the land in such a manner as will minimise and mitigate any disturbance caused by human intrusion, and</li> <li>e) To assist in and facilitate the implementation of any provisions restricting the use and management of the land that are set out in a recovery plan or threat abatement plan prepared under the <i>Threatened Species Conservation Act 1995</i> or the <i>Fisheries Management Act 1994</i>.</li> </ul>
bushland	<p>The land contains primarily native vegetation. The land may be</p> <ul style="list-style-type: none"> <li>a) bushland that is mostly undisturbed with a good mix of tree ages and natural regeneration,</li> <li>b) moderately disturbed bushland with some regeneration of trees and shrubs, or highly disturbed bushland where the native understorey has been removed</li> </ul>	<ul style="list-style-type: none"> <li>a) to ensure the ongoing ecological viability of the land by protecting the ecological biodiversity and habitat values of the land, the flora and fauna (including invertebrates, fungi and micro-organisms) of the land and other ecological values of the land, and</li> <li>b) to protect the aesthetic, heritage, recreational, educational and scientific values of the land, and</li> <li>c) to promote the management of the land in a manner that protects and enhances the values and quality of the land and facilitates public enjoyment of the land, and to implement measures directed to minimising or mitigating any disturbance caused by human intrusion, and</li> <li>d) to restore degraded bushland, and</li> <li>e) to protect existing landforms such as natural drainage lines, watercourses and foreshores, and</li> <li>f) to retain bushland in parcels of a size and configuration that will enable the existing plant and animal communities to survive in the long term, and</li> <li>g) to protect bushland as a natural stabiliser of the soil surface.</li> </ul>
wetland	The land includes marshes, mangroves, backwaters, billabongs, swamps, sedgelands, wet meadows or wet heathlands that form a waterbody.	<ul style="list-style-type: none"> <li>a) to protect the biodiversity and ecological values of wetlands, with particular reference to their hydrological environment (including water quality and water flow), and to the flora, fauna and habitat values of the wetlands, and</li> <li>b) to restore and regenerate degraded wetlands, and</li> <li>c) to facilitate community education in relation to wetlands, and the community use of wetlands, without compromising the ecological values of wetlands.</li> </ul>

1 Local Government (General Regulation) 2005

2 Local Government Act 1993

# GENERAL PROVISIONS CONT.

CATEGORY	GUIDELINES <sup>1</sup>	CORE OBJECTIVES <sup>2</sup>
escarpment	The land includes such features as a long cliff-like ridge or rock, and the land includes significant or unusual geological, geomorphological or scenic qualities.	<ul style="list-style-type: none"> <li>a) to protect any important geological, geomorphological or scenic features of the escarpment, and</li> <li>b) to facilitate safe community use and enjoyment of the escarpment.</li> </ul>
watercourse	Any stream of water, whether perennial or intermittent	<ul style="list-style-type: none"> <li>a) to manage watercourses so as to protect the biodiversity and ecological values of the instream environment, particularly in relation to water quality and water flows, and</li> <li>b) to manage watercourses so as to protect the riparian environment, particularly in relation to riparian vegetation and habitats and bank stability, and</li> <li>c) to restore degraded watercourses, and</li> <li>d) to promote community education, and community access to and use of the watercourse, without compromising the other core objectives of the category.</li> </ul>
foreshore	The land is situated on the water's edge and forms a transition zone between the aquatic and terrestrial environment.	<ul style="list-style-type: none"> <li>a) to maintain the foreshore as a transition area between the aquatic and the terrestrial environment, and to protect and enhance all functions associated with the foreshore's role as a transition area, and</li> <li>b) to facilitate the ecologically sustainable use of the foreshore, and to mitigate impact on the foreshore by community use.</li> </ul>

Council must manage Community land according to these core objectives. Any activities or uses of the land should be consistent with the core objectives for that category and sub-category of land. Additional objectives which support the above core objectives are included in the Performance and Assessment table (Table 4) in Chapter 3.

## FUTURE USE AND DEVELOPMENT ON LAND CATEGORISED AS A NATURAL AREA

On land which is categorised as a Natural Area, the main priority of Council is to preserve and protect the natural features. Therefore, there is a limited number of reasons a lease or licence may be granted for community groups to use this land on an ongoing basis. There is more scope for events, filming and commercial activities to take place on land which is categorised as General Community Use, Sportsground or Park.

## EAST BALLINA ABORIGINAL PLACE

The East Ballina Aboriginal Place contains a landscape of cultural features and natural resources, including former wetlands and coastal ecosystems. The land within the Aboriginal Place under this plan is managed as a Natural Area under the LG Act and is subject to the *National Parks and Wildlife Act 1987*. As a majority of the parcels within the East Ballina Aboriginal Place are included in the Ballina Coastal Reserve, further information on the management of the land is contained in that plan.

## GENERAL COMMUNITY USE AREAS, SPORTSGROUNDS AND PARKS

Sportsgrounds, Parks and General Community Use areas are set aside for the community to use and enjoy, while achieving the management objectives of the land.

The guidelines for categorisation of community land are set out in the *Local Government (General) Regulation 2005*. The core objectives for each category are set out in the *Local Government Act 1993*. The guidelines and core objectives for the Park, Sportsground and General Community Use categories are set out in Table 3.

### ROLE OF COMMUNITY USE LAND

General Community Use areas perform many functions relating to the enhancement of the health and wellbeing of the community. Outside of the provision of power easements, drainage reserves and access ways, the land may house buildings and structures such as neighbourhood centres or community halls that cater for formal and informal leisure and recreational activities, hobbies, artistic endeavours, educational, cultural and social functions. Consequently, these areas play a pivotal role in promoting and developing dynamic communities with a strong sense of belonging. Open space areas associated with General Community Use land also offer the community a range of recreation opportunities.

This provides individuals and communities with health related benefits achieved through physical activity such as physical, mental, social, cultural, economic and environmental benefits that lead to the overall health and wellbeing of the community.

### BOOKINGS AND EVENTS ON COMMUNITY LAND

In supporting liveability, parks, sportsgrounds and buildings intended for community use have significant potential as venues for short term public and private special events of different sizes and scale.

Council is responsible for bookings for the use of community land and reserves in our Local Government Area. Generally, Council seeks to encourage a broad and appropriate range of uses within its area. A range of policies address specific types of use in greater detail. Applicants should check the Shire's website for up to date information contained in these policies.

Ballina Shire Council has an Events on Public Land Policy which must be adhered to. Council also has Event Guidelines, which are designed to assist event organisers with the regulations and procedures associated with staging events in parks, open spaces or public roads under the ownership and/or control of Ballina Shire Council. The guidelines as well as the Events on Public Land Policy can be found on the Approvals page on Council's website.

# GENERAL PROVISIONS CONT.

## PLANTING IN PARKS

Ballina Shire Council, the community and the environment are very fortunate to have the ongoing voluntary support from numerous environmental care groups within the Shire.

These groups help to conserve and protect our natural environment at various locations on Council and Crown land throughout the Shire. This is through restoring and rehabilitating the native vegetation communities in the area by undertaking activities that include weed control, native species plantings, fencing and education. Land care activities are authorised by this POM, but need to be approved by Council. To find out more about registering a care group or locating a registered group, contact Council.

See also Council's [Urban Vegetation on Public Land Policy](#).

## ALLOCATION AND MANAGEMENT OF PLAYING FIELDS AND COURTS

Council's Sport and Recreation Facility Plan identifies the changing participation trends and facilities in the Shire. The strategy assists Council to assign priorities for further works.

For seasonal competitions, sports fields must be booked to avoid clashing with other sporting groups. Sporting groups can make bookings by completing a booking request via the sports field page on the Council's website.

Council's [Community Property Leasing and Licensing Policy](#) sets out the general terms and conditions of leases and licenses over many parcels of Council owned and managed land to Not for Profit Community Groups.

Council also grants licenses under the [Commercial Activities on Public Land Policy](#) and the holders of those licenses use various sportsfields across the Shire, for example, for group fitness training.

## FEES AND CHARGES

Fees and charges are determined by Council each financial year and contribute towards covering council's costs in providing services and facilities. In setting and approving the fees and charges, Council takes into consideration the following factors:

- the cost of council providing the service
- the price suggested by relevant industry bodies or schedule of charges published by the Office of Local Government
- the importance of the service to the community
- any factors specified in the regulations.

Council will review fees annually and they will be advertised in [Ballina Shire Council's Fees & Charges](#).

The use of fields for special events may be charged in accordance with Council guidelines having regard to the scale of events.

**table 3 GUIDELINES FOR AND CORE OBJECTIVES  
OF COMMUNITY LAND CATEGORISED AS PARK,  
SPORTSGROUND OR GENERAL COMMUNITY USE**

CATEGORY	GUIDELINES	CORE OBJECTIVES
PARK	Land which is, or proposed to be, improved by landscaping, gardens or the provision of non-sporting equipment and facilities, and for uses which are mainly passive or active recreational, social, educational and cultural pursuits that do not unduly intrude on the peaceful enjoyment of the land by others.	<ul style="list-style-type: none"> <li>• Encourage, promote and facilitate recreational, cultural, social and educational pastimes and activities</li> <li>• Provide for passive recreational activities or pastimes and for the casual playing of games</li> <li>• Improve the land in such a way as to promote and facilitate its use to achieve the other core objectives for its management.</li> </ul>
SPORTS GROUND	Land should be categorised as 'Sportsground' if the land is used or proposed to be used primarily for active recreation involving organised sports or the playing of outdoor games	<ul style="list-style-type: none"> <li>• Encourage, promote and facilitate recreational pursuits in the community involving active recreation involving organised sports and informal sporting activities and games</li> <li>• Ensure that such activities are managed having regard to any adverse impact on nearby residences.</li> </ul>
GENERAL COMMUNITY USE	Land that may be made available for use for any purpose for which community land may be used, whether by the public at large or specific sections of the public.	<p>To promote, encourage and provide for the use of the land, and to provide facilities on the land, to meet the current and future needs of the local community and of the wider public:</p> <ul style="list-style-type: none"> <li>• In relation to public recreation and the physical, cultural, social and intellectual welfare or development of individual members of the public</li> <li>• In relation to purposes for which a lease, licence or other estate may be granted in respect of the land (other than the provision of public utilities and works associated with or ancillary to public utilities).</li> </ul>

### 3. PERFORMANCE AND ASSESSMENT

The following Table 4 outlines Council’s performance targets and the means by which Council proposes to achieve these targets in accordance with the objectives specified in this plan of management. The table also contains the assessment criteria upon which Council will assess its performance with respect to the objectives and performance targets specified. This table relates to all Community Land covered by this POM.

table 4 PERFORMANCE AND ASSESSMENT

PERFORMANCE TARGET	MEANS OF ACHIEVEMENT	MANNER OF ASSESSMENT
<b>FACILITIES</b>		
Provide community facilities on community land that support the main purposes for which the land has been reserved.	Community facilities are provided, maintained and improved on community land in accordance with Council’s adopted strategies and programs. Sportsgrounds are provided with appropriate facilities and maintenance and are made available for the use of sporting clubs	Additional community facilities are provided and existing community facilities improved. Sportsgrounds are utilised and function as active and structured open space areas.
<b>COMMERCIAL OPPORTUNITIES</b>		
Realise appropriate commercial opportunities on community land that are permissible under the LG Act and that do not affect the main purposes for which the land has been reserved.	Options and proposals for appropriate commercial activities will be assessed and authorised on community land in accordance with Council policy and applicable legislative requirements.	Community land is appropriately used for commercial activities
<b>MAINTENANCE</b>		
Maintain community land in accordance with community expectations and ensure community land is safe for the general public.	Regular maintenance is undertaken on community land as appropriate. Leases and licenses granted over community land are to set out the repair and maintenance responsibilities.	Community land is consistently maintained in a good condition.
<b>PUBLIC SAFETY</b>		
Exclude public access from areas of community land containing public infrastructure to provide security and public safety.	Infrastructure located on community land is placed and secured appropriately to minimise public risk.	Infrastructure is secured by fencing and other appropriate means.

PERFORMANCE TARGET	MEANS OF ACHIEVEMENT	MANNER OF ASSESSMENT
<b>LANDSCAPING</b>		
Provide landscaping and embellishment of community land to enhance visual amenity.	Community land is landscaped and embellished in accordance with Council's adopted programs and strategies.	Existing landscaping is maintained and improved. Additional landscaping and embellishment is provided.
<b>PUBLIC INFRASTRUCTURE</b>		
Minimise the effects and detrimental impacts of installation and expansion of public infrastructure on community land.	Infrastructure proposals are assessed for their impacts on community land. Where appropriate, infrastructure is not placed on community land.	Infrastructure installations on community land are of minimal impact and do not unreasonably limit the use of the land for community purposes. Land containing infrastructure is reclassified as operational land.
<b>NATIVE VEGETATION</b>		
Protect environmentally significant stands of native vegetation.	Significant stands of vegetation on community land are protected by public exclusion, restoration, rehabilitation, fencing and signage as appropriate.	Ecological values of significant stands of vegetation are maintained and improved.
<b>THREATENED SPECIES</b>		
Protect threatened species, populations and ecological communities and their habitats.	Appropriate conservation and protection is provided to threatened species and ecological communities.	Numbers of threatened species, populations and the integrity of ecological communities and their habitats are maintained or improved.
<b>ARCHAEOLOGY</b>		
Protect significant archaeological relics	Significant archaeological relics are identified, managed, preserved and excluded from public access as appropriate.	Damage to archaeological relics is prevented.
<b>HERITAGE</b>		
Protect and preserve buildings and structures on community land that have historic significance.	Buildings and structures having historic significance are identified, managed, preserved and excluded from public access as appropriate.	Buildings and structures are maintained as functional assets and/or preserved and decay/damage is prevented or minimised.

## 4. SPECIAL PROVISIONS

This section contains provisions that apply specifically to certain areas of community land in accordance with section 36(3A) of the LG Act. These special provisions are supplementary to the general provisions contained in Chapter 2. The special provisions recognise unique features of specified community land and may authorise specific land uses and/or authorise the granting of a lease, licence or other estate over the land or buildings contained thereon.

The special provisions contained within Table 6 are listed based on the land identification number in Council's Land Register. The details of all community land to which this plan of management applies, including details of the categorisation of the land and whether special provisions apply, is contained in Council's Land register. Appendix 1 contains the details of the community land parcels managed by Council at the time of adoption of this Plan of Management.

Any exclusive occupation or exclusive use of community land or buildings located on community land as provided

by these special provisions will only be by way of a formal lease, licence or other agreement entered into between the occupying party and Ballina Shire Council, as required under section 47D of the LG Act. Any lease, licence or other agreement entered into as facilitated by this plan of management will be undertaken in accordance with the provisions of Council's policy on leasing/licencing/agreements as applicable at the time of execution.

'Condition' in relation to land/buildings/improvements is described as either poor, fair, good or excellent. The attributes for each of these categories is explained in Table 5.

### ENDORSED MASTER PLANS AND MANAGEMENT PLANS

Development works and uses provided for on land the subject of this plan under a Council endorsed master plan, management plan or the like (including coastal zone management plans) is permitted under this plan.

table 5 ATTRIBUTES RELATING TO CONDITION OF LAND / BUILDINGS / IMPROVEMENTS

POOR	Generally unmaintained, not fit for use, requires substantial repair or upgrade, consideration to be given for removal or replacement of structure.
FAIR	Generally poorly maintained, able to be used for existing purpose with moderate level of repair, not suitable for additional purposes, requires repair or maintenance works, or replacement.
GOOD	Generally well maintained, able to be used for existing or similar intended purpose, requires routine maintenance or minor repairs.
EXCELLENT	Very well maintained, able to be used for existing and intended or additional purposes, requires minor periodic maintenance and monitoring.

# 5. INTEGRATION OF SITE SPECIFIC PLANS OF MANAGEMENT AND MASTER PLANS

Some land within the Shire is subject to more detail about use and management. This level of detail is often associated with a site specific plan of management that has been prepared or a master plan.

This POM integrates master plan outcomes through the special provisions of the plan. The POM also integrates the following site specific plans of management:

- Hampton Park Plan of Management
- Williams Reserve Plan of Management

Hampton Park and Williams Reserve are managed under the terms of this plan in a manner consistent with the following elements of each plan of management:

LAND	MANAGEMENT ELEMENTS	REFERENCE PLAN DATE
HAMPTON PARK	Vision Management Principles Management Units Development Strategy Action Plan	May 2005
WILLIAMS RESERVE	Vision Statement Management Principles Management Units (aims and strategies)	September 2007
