### Categories Of Pricing Policies

<b>A</b>	Business/Commercial – Prices are established in accordance with the prevailing market.
<b>B</b>	Full Cost Recovery – Prices are set to cover the total cost of providing the goods or service.
<b>C</b>	Partial Cost Pricing – Prices are set at what Council considers to be a reasonable cost for the user to bear. The balance of necessary funds is sourced from general revenues.
<b>D</b>	Rate of Return – The price for this service is set to make a contribution towards the cost of providing or replacing infrastructure.
<b>E</b>	Fixed by Legislation – Prices are set by legislation.

### Council may waive or reduce fees

In accordance with section 610E of the Local Government Act fees or charges may be waived or reduced in accordance with the following criteria:

<b>A</b>	In circumstances where there is commercial hardship suffered by an individual or organisation that will result in loss or reduction to services considered to be important to the entire Shire.
<b>B</b>	To assist charitable or non profit organisations where there is considered to be a benefit to the community of Ballina Shire.

### Goods & Services Tax (GST)

Fees and charges are shown with GST included where appropriate.

Y	=	Deemed to be taxable and fee/charge includes GST
N	=	Deemed to be non-taxable and fee/charge excludes GST
Input Taxed	=	Fee or charge excludes GST
Y/N	=	Combination of taxable and non-taxable as described

### Credit Card Payments

Council is charged a fee by the credit card provider when a payment is made by credit card. Council will raise a fee against the credit card user to recover the fee raised against Council by the credit card provider. The fee will vary depending on the type of card used and the amount paid.

<b>Sewerage Services</b> (Section 501 & 502 Local Government Act) Sewer charges are based on the following formula: SDF x (AC + C x UC) SDF = Sewerage Discharge Factor. Amount of water consumed that is returned to the sewerage system. SDF varies dependent on activity conducted on property. AC = Annual Non-Residential Sewer Access Charge based on size of water meter C = Water Consumption measured in kilolitres UC = Sewerage Usage Charge per kilolitre = \$1.40/kl Council reserves the right to amend the SDF to represent actual water returned to the sewerage system for Non-Residential customers in consultation with those users. If the actual discharge to the sewerage system is proven by a Non-Residential consumer to be less than the standard guideline discharge factor, Council will charge on the basis of the proven discharge factor. Where a property has a water meter installed that is larger than required for normal use due to the provision of a fire service, the access charge is to be based on the size of the meter required for normal usage.

<b>Backlog Sewer Program</b> Council is committed to providing sewer services to those areas in the Shire that are on the fringes of urban development and do not currently have sewer services available. Council has agreed to provide an 80% subsidy for the costs of reticulation and associated infrastructure for residential properties. Individual property owners shall be 100% responsible for the cost of internal plumbing, power and other tasks required for connection.  Council will recoup the costs of the 20% that is payable by residential property owners via the imposition of a higher annual sewer charge over a five year period and will recoup the costs of 100% due by non residential property owners over a ten year period. It will be necessary for landowners to enter into an appropriate legal agreement setting out the responsibilities of Council and property owners.  The individual properties that are subject to the backlog sewer program are available by contacting the sewer services section at Ballina Shire Council.

NOTE 1: A credit for development is recognised for an existing approved allotment.

**NOTE 1:** A credit for development is recognised for an existing approved instrument.

**NOTE 2:** The contribution rates for non-residential development are determined in accordance with the relevant Contributions Plans.

NOTE 3: Residential developments in rural areas are generally restricted to dual occupancy development

NOTE 3: Residential developments in rural areas are generally restricted to local co-ownership developments.

NOTE 4: The Access & Transport Facility contribution rate shown for the WJLEA is an approximation as the contribution amount is determined on the area being subdivided. It does not apply to subsequent residential building developments.

NOTE 4: The Roads Contribution for the WIEA is discounted from the \$0.123 rate for the initial subdivision to ensure the total Section 94 contributions remain under the NSW State Government \$20,000 "affordability threshold". It does not apply to subsequent residential building.

**CAUTION:** Some adjustments may be necessary to account for differences in the catchment areas used by different contributions plans.
