To the General Manager,

My name is Melissa Gold and I teach Science in the Support Unit at Ballina High School. As part of the Life Skills Science program we are doing a unit on 'plants'. We would like to re-establish the vegetable garden in the school as one of the practical components of this course. We require approximately 3 cubic metres of soil and we were wondering if Ballina Shire Council could help us by donating the soil to the school. Could you please contact me either via email or phone to let u know if you are able to support us in this endeavour.

Regards,

Melissa Gold
