

1. The minimum fill levels shown, refer to Australian Height Datum (AHD).
2. The minimum fill levels shown are based on the maximum predicted flood level from modelling undertaken for the Ballina Floodplain Management Study (VBM, 1997), the Ballina Flood Study Update (BMT WBM, 2008), and the Ballina Floodplain Risk Management Study (BMT WBM, 2010).
3. The Ballina Flood Study Update (2008) is based on predictions for major flooding events and does not represent localised drainage patterns.
4. The areas shown for minimum fill levels do not represent the extent of flooding or spread of floodwaters.
5. The minimum levels shown in brackets (), represent minimum floor levels in rural areas for machinery and farm sheds.

Title:
**Minimum Fill Policy (m AHD)
100 Year ARI Flood Levels**
