OBJECTIVE

The objective of this policy is to provide guidelines for the management of recurring rates and charges donations by Council.

POLICY

Council will annually donate land rates and charges (e.g. water, wastewater, etc.) to assist organisations in delivering community based services with the Ballina Shire.

This assistance is provided as Council recognises that many community based organisations have limited resources and by providing this donation Council can assist these organisations in providing those services.

Guidelines for Selection:

- The recipient organisation must be not for profit and must provide a community service within the Ballina Shire.
- The organisation will typically be located on community owned or controlled land, being either Council or crown land.

Strategies:

1. Based on the above guidelines Council has identified two categories of donations, being organisations that are entitled to a 100% donation of their rates and charges each year and organisations entitled to a portion of their rates and charges being donated each year.

2. The two categories are defined as:

Category A - Council will donate all rates and charges, as the organisation has:

- (i) no control over the levying of the number or amount of the land rates and access / annual charges and little or no control over the consumption component of any charge or
- (ii) the donation is consistent with a Council lease agreement.

Category B – Council will donate the access / annual charges component of the rates and charges bill however the organisation will be responsible for charges based on usage, or optional charges, where the organisation has the ability to manage that usage or determine whether it wishes to be provided with the service.

Category/ Organisation	Rates	Water		Sewer		Waste	Storm water	On Site Septic

BACKGROUND

In accordance with Section 356 of the Local Government Act Ballina Shire Council annually donates rates and charges to a range of community groups. This policy provides a framework to explain how Council allocates that assistance. Section 356 of the Local Government Act also requires a council resolution for each donation. Therefore the policy provides a framework for the donation but not the authority to donate.

REVIEW

This policy is to be reviewed at least every four years.
