

Ballina Shire Coastline - Key Viewing Points

Council manages Crown Land that runs along the Shire coastline between the Richmond River and Lennox Head (the Coastal Reserve). As part of managing this land, Council undertakes bushland restoration and maintenance works, whilst also providing a variety of services and infrastructure (including beach accesses, pathways, beach amenities and viewing points).

The following plans show key locations where Council manages the Coastal Reserve having particular regard for coastal viewing opportunities and values. Council balances this with the promotion and recognition of ecological values associated with coastal ecosystems. Council has vegetation management plans for the land that recognise the value of views, identify important vegetation communities and guide bushland management and restoration activity.

For further information contact Council's Open Spaces Section via email at openspaces@ballina.nsw.gov.au.

Lighthouse and Shelly Beach

-  Shelly Beach Central (Hindmarsh Street)
(9m elevation)
-  Shelly Beach SLSC
