

**LEGEND**

**Existing**

-  Pandanus
-  Norfolk Island Pine
-  Other tree (Coast Banksia, Tuckeroo etc.)
-  Light pole

**Proposed**

-  Tuckeroo
-  Seat
-  Picnic shelter
-  Timber bollards
-  Garden area
-  Sculptural feature (created as part of the Tafe art program)

Remove concrete bollards and install timber bollards to define carparking and access

Garden area of groundcovers (up to 1m high) between carparking areas

Shade trees - Tuckeroo  
Retain views under canopy

Retain existing cluster of trees and densely plant understorey with low groundcovers. Provide a flush mowing edge to the garden area.

Turtle walk - Install a meandering pathway throughout the garden mounds. Install sculpture created as part of a Tafe Art Program along pathway. Art theme - 'turtles and environment'. Exposed aggregate concrete pathway.

Construct pathway on new alignment. Low sandstone signage walls at entry including park name.

Existing picnic shelter (Repair and renovate)

Retain existing bus shelter

Construct new toilet facilities (3 unisex accessible toilets). Include outside tap and electrical service point.

New seat

Existing shower

Existing beach access regenerated

Tornado memorial (location to be confirmed)

Regrade hatched area to create a flat surface suitable for the temporary installation of tent structures for local surf events. Retain existing levels where trees occur.

Electrical service point for events

Existing beach access

Continue dune rehabilitation

Existing fence to be retained

Remove existing seats throughout this area and replace with new seats.

Flattened area suitable for competition podium (approx 10m x 14m)

Possible location for sculpture at end of foreshore pathway

Existing beach access retained

Picnic shelters with table setting including tap and electrical service point

Replace post and wire fencing with post and rail to match others

Remove old light post

Flattened area suitable for competition sponsors tents (approx 5-7m x 23m)

New seats

Approx. 3m width between path and fence for monthly surf event tents (All Girls, Le Ba).

Remove existing small gardens Retain Pandanus

Plant Kauri Pine either side of Byron Street to frame view axis

Foreshore pathway and surfing memorial walk (Refer to sheet 2). Locate to retain existing light poles. Replace existing lights with solar pole top lights in future.

Picnic shelter with table setting, tap and electrical service point

New seating

Existing beach access retained

Deck platform with built in bench seat and outdoor shower. Install beach name and advisory signage as required.

Regrade hatched area to create a flat surface suitable for the temporary installation of structures for local events or larger private family picnics.

Connect into existing footpath
