

Second-hand TREASURE HUNT!

Let's go!
Find something that:

is really, really old

would make a good gift

you could play with

a pet would like

needs to be fixed

you can read

holds things

is for the kitchen

your friend might like

you could build with

you could take camping

you could plant something in

looks brand new

needs some paint

might help clean up

makes a sound

you have no idea what it is

you could use for crafts

you could use outside

you can't believe was thrown out

Good work!

How many of these items
did you find that can be
reused again and again?
