Ballina Resource Recovery Centre

Hours of operation:

8.00 am - 4.00 pm 7 days

(excluding public holidays)

167 Southern Cross Drive

Ballina NSW 2478

Phone 6686 1287

Email council@ballina.nsw.gov.au

Salvage Shed tip shop

Ballina Salvage Shed is a resource recovery shop that aims to divert material that can be recycled or reprocessed from landfill. It is operated by Momentum Collective, a not for profit community organisation and the shop supports their programs.

Items for the Salvage Shed must be taken over the weighbridge and enter the Resource Recovery Centre as waste. Salvage Shed staff will then assess the items and decide if they are suitable for salvage and resale in their shop.

Open 9.30am - 3.30pm 7 days (excluding public holidays)

Phone 0429 934 557

This leaflet is a NSW EPA Waste Less, Recycle More initiative funded from the waste levy

ballina resource recovery centre

user guide

what we offer

Most waste materials that do not fit or cannot be placed in your existing bin system can be taken to the Resource Recovery Centre.

All vehicles are weighed in and out of the Resource Recovery Centre and waste materials are charged on a weight per category basis. This makes it more cost effective for visitors.

The minimum weight measured is 20 kg which is the accuracy of our weighbridge.

On arrival, weighbridge staff will direct you to the appropriate area (see map).

sort your load and save

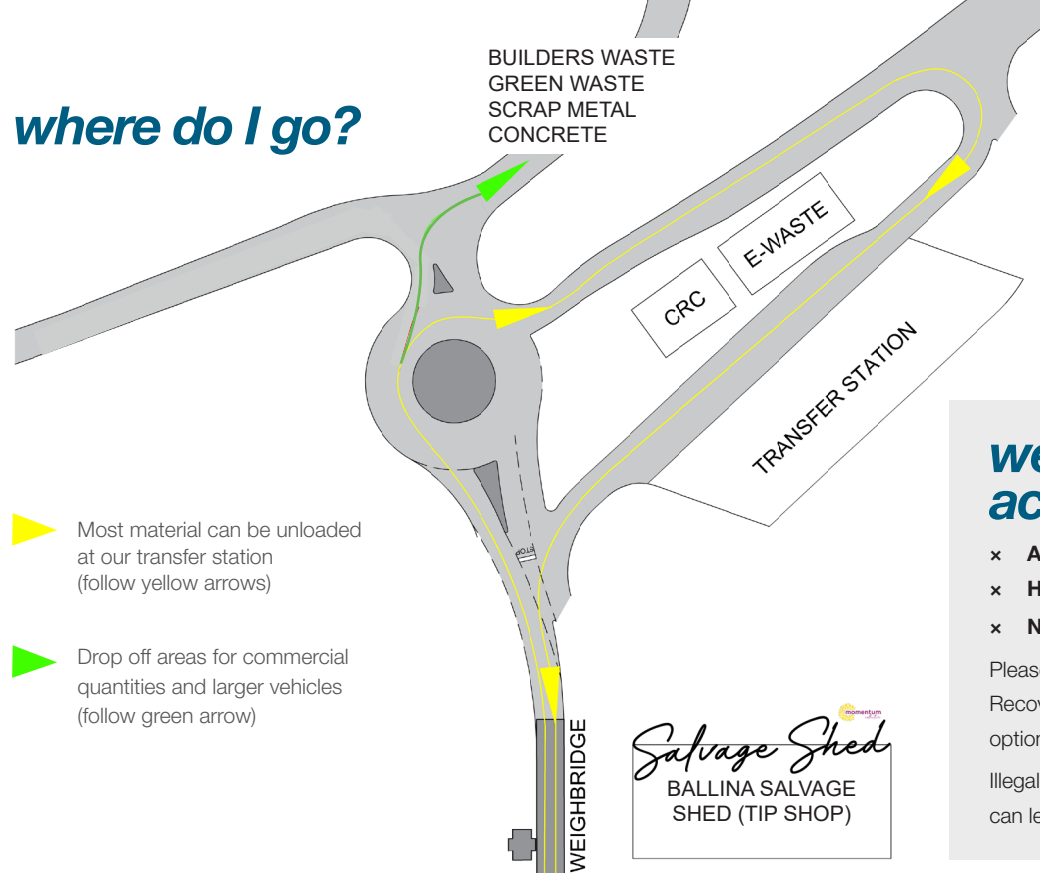

To ensure you are charged the cheapest rates, make sure you sort your items into waste, recyclable materials and FREE drop off items prior to your arrival.

You may be required to go over the weighbridge twice to differentiate free, fixed price and fee-based materials.

commercial waste

Larger drop off areas are available for commercial quantities and large vehicles (see map).

where do I go?

other services

weighbridge certificates

Available for registration purposes only as this facility is not a public weighbridge (fees apply).

asbestos sample test kits

Ballina Shire residents are eligible for one FREE household test kit per household available for collection from the Resource Recovery Centre, and Customer Service Centre (40 Cherry Street).

To check if a material is asbestos, drop off your sample to the Resource Recovery Centre to be forwarded to the laboratory for testing. Allow approximately 5 business days from receipt of sample for results to be emailed back to you.

BALLINA SALVAGE SHED (TIP SHOP)

CRC

community recycling centre

A range of common household hazardous waste materials can be dropped off for **FREE** at the CRC for quantities of 20kg or 20 litres.

Accepted materials:

- fluorescent light bulbs and tubes
- all sized batteries
- cooking and engine oils
- gas bottles
- fire extinguishers
- smoke detectors
- paint

e-waste

TVs, computers, printers and electrical cables can also be dropped off for **FREE** next to the CRC.

we do not accept

- × Asbestos
- × Hazardous waste
- × Needles and sharps

Please contact the Resource Recovery Centre for disposal options on 6686 1287.

Illegal disposal of these materials can lead to fines up to \$1million.
