

## ***Water outage – Alstonville, north of Main Street***

Drinking water services in Alstonville will be temporarily unavailable for properties located north of Main Street from **9am to 3pm Wednesday 27 January 2021**.

Approximately 185 properties will be impacted by this outage on the following streets:

- Albert Street
- Shoalhaven Street
- Elliot Avenue
- Kim Court
- Evelyn Villa Drive
- Commercial Road
- Park Avenue
- High Street
- Bugden Avenue
- South Street

During this time no drinking water will be available via internal or external water outlets.

Council makes every effort to minimise water disruptions to our community. However, this temporary disruption is essential and will allow our Water and Wastewater Section to install a new water main.

Council appreciates the community's patience during these essential works.

Here are some tips that will assist residents during this outage:

- Fill drinking containers **the day before** in preparation for this outage.
- During any water disruption it's important to **leave taps off** as the water may return at any time.
- When water returns it **may** be discoloured. This is due to sediment. Please run the tap until the water runs clear.
- Water **may** appear milky. This is caused by small air bubbles. Don't be alarmed it is not harmful, and will settle in a short period.

For enquiries please contact Council's Water and Wastewater section on 1300 864 444.
