

## ***Ballina Byron Gateway Airport Health and Safety Update***

The Victorian Government has identified new venues of concern following the recent detection of a COVID case.

In response to this announcement, NSW Health will be attending the Ballina Byron Gateway Airport from Thursday 4 February meeting passengers on flights from Melbourne.

Staff will continue to screen passengers for any COVID-19 symptoms including temperature checks. All passengers arriving from Melbourne will be required to complete a declaration.

The passenger declaration will be required for all NSW airports. Therefore Victorian passengers visiting Ballina via any NSW airport will be required to complete a declaration.

Passengers who have visited a venue of concern, identified by the Victorian Department of Health and Human Services, will be required to have a Covid test and self-isolate until they received a negative test result.

The Ballina Byron Gateway Airport currently receives one Jetstar flight from Melbourne per day.

Under the latest NSW Health safety guidelines it is still a requirement for all passengers to wear a mask in NSW airport terminals and all flights.
