

- 1 Raised speed bumps and crossing points
 - 2 Reduce speed limit to 30km/hr
 - 3 Bike parking and maintenance facilities
 - 4 Footpath extension around entire block
 - 5 Moveable parklet with seating and greenery
 - 6 Decorative pavement art
 - 7 Mural and pavement lighting
- Roundabout Allens Pde/Ballina St (not shown)

Streets as Shared Spaces

A slow side path: not a fast short cut

This project is a program of temporary traffic calming and streetscape features aimed at improving safety and amenity in and around Park Lane, Lennox Head. Many of these features are based on the community feedback that informed the adopted Concept Plan for the Lennox Head Village Centre. This pilot program will test these features for permanent installation under a future stage of the Lennox Village Vision. The program of works will be installed from December 2020 and will remain in place for eight to nine months.
