Lennox Village Vision – Works Commencing

10 September 2021

To the Resident/Business Operator

Re: Lennox Village Vision – Works Commencing

Ballina Shire Council is excited to announce that work on the Lennox Village Vision project will commence on **Monday 20 September 2021**.

Initially our crews and contractors will conduct minor cultural heritage investigations in Ross Park, followed by Lennox Park then Ballina Street. These works will require the temporary partial closure of Ross Park, Lennox Park and nearby carparks.

In preparation for these early works the bus shelter in Ballina Street, adjacent to Lennox Park, has been removed. The bus shelter will be replaced in due course as the renewal works continue. In the interim the Lennox Park shade pavilion will be used as a temporary bus shelter.

The cultural heritage investigations are expected to be complete in mid-October 2021. Contractors will then commence undergrounding of power and stormwater services. Council will provide a further update to businesses and residents as we reach this next phase.

Council apologises for any inconvenience caused and thanks the community for their patience during this time.

For more information about the staging of works and to register for project updates please visit **ballina.nsw.gov.au/LennoxVillageVision**

Yours faithfully

Brett Dyki
Project Manager - Project Management Office
