

# » Shaws Bay Precinct project update

July 2020

**Ballina Shire Council is continuing the actions from the Coastal Zone Management Plan to improve the health of the Shaws Bay ecosystem and the local amenity.**

The next stage of improvement works at Shaws Bay are recommencing and will be completed by Ballina Shire Council staff and specialised contractors.

Synergy Resource Management has been engaged to undertake the dredging and associated processing including the foreshore stabilisation works. Synergy undertook the improvement works at Shaws Bay East Arm along Fenwick Drive, in 2018.

#### **The next stage of improvements will see:**

- Dredging of the bay
- Foreshore improvements along Pop Denison Park
- Beach nourishment of existing access points around the bay
- Expansion and rectification works on groynes on the eastern arm along Fenwick Drive.

The final path connecting Compton Drive into Pop Denison Park will also be completed. The boardwalk style path will meander alongside vegetation and allow for saltmarsh to establish in the ecological zone.

» **The following pages illustrate the works to be undertaken.**

#### **Shaws Bay Coastal Zone Management Plan**

The Shaws Bay Coastal Zone Management Plan (CZMP) establishes the management objectives, to address issues and the community desires for the future management of Shaws Bay.

There are a series of actions identified in the CZMP that Council has and will continue to implement over time.

These works will ensure the community has access to improved recreational amenities and continued enjoyment of the wonderful assets that the Shaws Bay precinct has to offer.

Council apologises for any inconvenience these works and interruptions to access may cause. Measures will be in place for the duration of the improvement works to ensure public and worker safety.

It is anticipated the majority of this stage of works will be completed by early December 2020.

Past project updates are available on Council's website [ballina.nsw.gov.au/shawsbay](http://ballina.nsw.gov.au/shawsbay)
