

2020 - 2024

Our community our future

Our design rationale for this document is based on a conceptual interpretation of its contents. To symbolise the strategic community approach, we have used segmented shapes to represent the elements of the community that fit into the geographic focus – Ballina. Together, the shapes form the Ballina River map. Every element impacts on the challenges, direction and ultimately the future of its entire form – our community. We hope you enjoy the journey and the view.

B

introduction from our mayor

On behalf of Councillors and staff I am pleased to present our Delivery Program and Operational Plan for the period 2020/21 to 2023/24. The Program and Plan outline our vision and priorities for the future in four main areas: a Connected Community, a Prosperous Economy, a Healthy Environment and Engaged Leadership.

With the unfolding coronavirus pandemic we need to be flexible and creative to ensure that what we plan to deliver to our community aligns with the four directions mentioned in the opening paragraph.

The COVID-19 pandemic will impact us in so many ways. Socially, how do we protect our most vulnerable community members? How do we ensure that our local businesses continue trading and provide employment? We need to be flexible; reassuring our community that together we will all get through this.

Many of the services we provide such as water, waste collection, parks, roads, footpaths and drainage are all critical components of our day to day life. This means it is essential that we provide the services that our community needs.

In addition to our essential services we will provide a business support package and social programs to assist local businesses and members of our community doing it tough.

We will also stay on track with the delivery of major projects, which will bring economic and social benefits to our community.

We will finalise the Coastal Shared Path and the Coastal Recreational Walk between Ballina and Lennox Head, complete a significant refurbishment of Pop Denison Park in East Ballina and deliver the new Wollongbar District Park.

We will continue planning and commence delivering the duplication of River Street throughout the four year program to ease traffic congestion in Ballina.

The Lennox Village Vision consultation project will continue which will result in the beautification of the Lennox Head village centre.

The Ballina Byron Gateway Airport will survive and deliver economic benefits to this entire region, with further capital works planned in the four year period. The new entry road to the airport, known as Airport Boulevard, will be complete and with that comes the next release of land at the Southern Cross Industrial Precinct.

Many of these projects will be completed by Council partnering with Federal and State Governments and we will continue to work cooperatively with all levels of government, local businesses and our community, as so much more can be accomplished when we work together.

This was to be the final Delivery Program and Operational Plan for this term of Council. However the 2020 Local Government Elections are postponed until September 2021. Our team of Councillors and staff have so much more do, and this document provides a good overview of our priorities for the next four years and the difference we hope to make.

The Program and Plan is the product of teamwork by Councillors, staff and valuable community input. It is a vital document that keeps the community informed of Council's direction. We hope you also find this document informative and we look forward to any feedback you may wish to provide on the outcomes we continue to seek for the residents of the Ballina Shire.

Cr David Wright, Mayor

D'Illingh

Acknowledgement of Country

Ballina Shire Council acknowledges that we are here on the land of the Bundjalung people. The Bundjalung are the traditional owners of this land and are part of the oldest surviving continuous culture in the world.

The Ballina Shire is safe, with a connected community, a healthy environment and a thriving economy.

our values

CREATIVE - we want to encourage ideas and be innovative.

ACCESSIBLE – we need to be accessible and responsive to our community and our fellow employees.

RESPECTFUL – we take responsibility for our actions and appreciate everyone's opinions.

ENERGETIC – we want to be enthusiastic in our approach to work.

SAFE – safety takes priority over all actions and we want everyone to arrive at work and go home from work safe.

our council representatives

Councillors are elected in Wards, however each Councillor represents the entire community and can be contacted on any matter. You can contact Councillors in person, by phone or email.

The Ballina Shire Local Government Area is divided into three Wards, represented by ten elected Councillors, being three from each Ward plus a popularly elected Mayor. The elected Council is responsible for the direction and control of Council's affairs in accordance with the NSW Local Government Act and associated legislation.

Councillors represent the interests of our residents and ratepayers. They serve the community by listening to people and then representing those views on Council. They work together to make decisions about what the Council will do to meet community needs and how money should be spent in the best interests of the community as a whole.

They provide leadership and guidance to the community; and facilitate communication between the community while maintaining the broader vision, needs and aspirations of the whole Ballina Shire community. Councillors do not get involved in the day to day running of the Council. This is the role of the General Manager.

Some of the many things a Councillor does include:

- Taking part in Council and committee meetings
- Reading Council business papers and preparing for meetings
- Reviewing Council's progress on the Delivery Program and Operational Plan and budget on a regular basis to check if progress is on track
- Speaking to members of the community about their needs and concerns
- Taking part in civic events
- Keeping an eye out for problems with Council assets that may need to be reported or inspected.

getting involved

There are an number of ways you can get involved and help shape decisions for our community by:

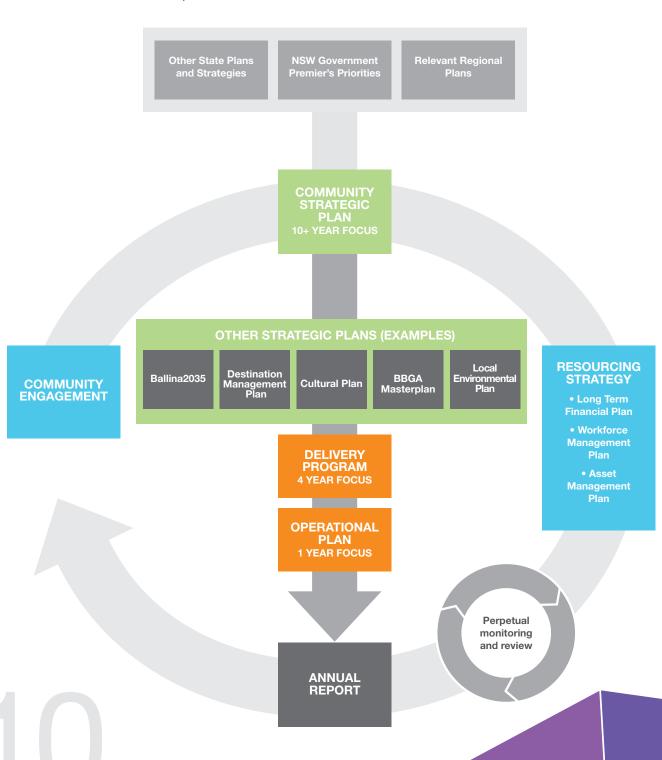

- Attending Council meetings
- Making an appointment to speak with the Mayor or Councillors
- Making an appointment to speak with the General Manager or relevant Director
- Writing or telephoning Council about the issues important to you
- Attending a public meeting or forum to discuss specific issues
- Joining a Council committee or reference group.

A A delivery program

1. integrated planning + reporting framework

The Delivery Program and Operational Plan form part of the NSW Office of Local Government's Integrated Planning and Reporting (IPR) Framework. There are a number of key elements in the framework that focus on planning and reporting requirements. The diagram below illustrates where the Delivery Program and Operational Plan fit in the overall framework and how our plans interrelate.

integrated planning and reporting framework @ ballina shire council

"The Ballina Shire is safe, with a connected community, a healthy environment and a thriving economy."

This vision, together with our priorities and aspirations for the future are encompassed in the Ballina Shire Community Strategic Plan and then translated into actions and activities in our four-year Delivery Program and annual Operational Plan.

Our Community Strategic Plan is built around four key themes:

Connected Community (CC)

Prosperous Economy (PF)

Healthy Environmen

Engaged Leadership

The NSW Government's Integrated Planning and Reporting framework (illustrated on page 10) outlines how local government's capture the community's main priorities and aspirations for the future and outlines how these will be achieved. These documents are linked through a series of cascading actions that detail how the community's long term aspirations and outcomes will be achieved. All councils have a:

- Community Strategic Plan
- 2. Delivery Program and Operational Plan
- Resourcing Strategy

Council reports to its community how it has progressed in achieving these plans through:

- 1. Quarterly Reports
- 2. Annual Report
- 3. End of Term Report.

COMMUNITY STRATEGIC PLAN

The Community Strategic Plan identifies the community's future goals, and strategies to achieve those goals by posing four key questions:

- Where are we now?
- Where do we want to be in 10 years time?
- How will we get there?
- How will we know when we've arrived?

Our Community Our Future is supported by other plans in the planning framework which reflect the priorities and aspirations identified in the Community Strategic Plan.

The Community Strategic Plan (CSP) is the visionary long term document within the Integrated Planning and Reporting Framework. It provides the broader strategic direction for a council and outlines the key outcomes that the council, other agencies and the community will be working to achieve, such as improved services for health, education, and transport, modern community infrastructure and viable businesses.

It translates the community's key priorities and aspirations into long-term strategic goals that guide the future direction of Ballina Shire. Safe, healthy and happy communities and protection of the environment were key concerns identified during the community engagement undertaken to develop this plan.

Whilst the CSP is Ballina Shire Council's work, its success inevitably depends upon collaboration and partnership with the community and State and Federal Governments.

This document is available on Council's website *ballina.nsw.* gov.au.

DELIVERY PROGRAM AND OPERATIONAL PLAN (COMBINED DOCUMENT)

This is the point where the directions outlined in the CSP are systematically translated into actions. The Delivery Program and Operational Plan (combined

document) is designed as a single point of reference for all key activities to be undertaken by the Council during their elected term.

This document is reviewed annually with Council receiving progress reports every quarter.

RESOURCING STRATEGY

The Community Strategic Plan (CSP) cannot be fulfilled without sufficient resources – time, money, assets and people – to actually carry them out.

The Resourcing Strategy has three components:

- Asset Management Plan
- Workforce Management Plan
- Long Term Financial Plan

The Resourcing Strategy assists Council to translate the outcomes identified in the CSP, for which it is responsible, into actions. Some issues will be the responsibility of Council, some will be the responsibility of other levels of government and some will rely on input from community groups or individuals.

ANNUAL REPORT

The Annual Report focuses on our implementation of the Delivery Program and Operational Plan. The report also includes some information that is prescribed by the Local Government (General) Regulation 2005. This information has been

included in the Regulation to help community members understand how council has been performing both as a business entity and a community leader.

END OF TERM REPORTS

Councils are required every four years to produce an End of Term Report on the progress in implementing the Community Strategic Plan. The Report covers the term of office for an elected council.

The most recent End of Term Report 2012 - 2016 can be downloaded from

Council's website ballina.nsw.gov.au

PROGRESS REPORTS

In accordance with the Integrated Planning and Reporting requirements progress reports must be provided to Council at least every six months. At Ballina Shire Council we present quarterly reviews to Council. This monitoring mechanism provides a snapshot of accomplishments and any shortfalls in achieving Council's goals and priorities.

what our community wants

what our community wants

Our community aspirations have been grouped under four themes, referred to as Directions. The Directions apply the Quadruple Bottom Line (social, economic, environment and governance) to provide a holistic approach to achieving our vision. The Directions and Outcomes identified in our Community Strategic Plan are as follows, with every Delivery Program and Operational Plan Strategy and Action then linked to these Directions and Outcomes.

CONNECTED COMMUNITY (CC)

People told us they want to feel connected to a community which is respectful, inclusive and tolerant of all ages and cultures.

We want to feel safe and supported. We want to live in an area that is relaxed, where we know our neighbours, where people are happy and friendly and where the needs of all residents, from the young to the old, and those with disabilities are treated equally and fairly. The outcomes we are after are:

CC1 We feel safe

CC2 We feel connected to the community

CC3 There are services and facilities that suit our needs

PROSPEROUS ECONOMY (PE)

During our community engagement people told us they want a vibrant and diverse local economy that provides

a range of jobs and opportunities for people of all ages. Importantly, we want to ensure there are job opportunities for our young people so they do not have to leave the area to find work. We want to attract innovative and progressive businesses that will ensure our villages and towns continue to thrive and prosper. The outcomes we are after are:

PE1 We attract new business and visitors

PE2 My business can grow and diversify

PE3 Improved liveability in the Ballina Shire

HEALTHY ENVIRONMENT (HE)

The health and preservation of our natural environment was a strong recurring theme from our community engagement.

We want to continue to find a balance between development and the environment to ensure we preserve what people love so much about living in the Ballina Shire. We want to restore and repair our waterways and areas that have been degraded to maintain aquatic and bird life. We understand the importance of peace, serenity and harmony with nature. We want our built environment to meet our needs but not at the expense of our natural environment or the people who live and work here. The outcomes we are after are:

HE1 We understand the environment

HE2 We use our resources wisely

HE3 Our built environment blends with the natural environment

ENGAGED LEADERSHIP (EL)

During our community engagement people told us they want to have confidence and trust in their elected

representatives and want a genuine partnership with Council where their voices are heard and their opinions respected. Our community wants resources to be used efficiently and responsibly. People want Council to act locally but to also work effectively and collaboratively with other levels of government, private sector organisations and community groups to drive economic and social prosperity. The outcomes we are after are:

EL1 Our Council works with the community

EL2 Council's finances and assets are well managed

EL3 We are all valued citizens

state and regional plans

3. consideration of state and regional plans

Local Government is legislated by State Governments and it is important that our plans align with the State Government's priorities. To achieve this we have linked the Strategies and Actions in our Delivery Program and Operational Plan to the twelve 'Premier's Priorities' outlined below follows.

Strong budget and economy **SP1**

- 1.1 Making it easier to start a business
- 1.2 Encouraging business investment
- **1.3** Boosting apprenticeships
- 1.4 Accelerating major project assessment
- **1.5** Protecting our credit rating
- **1.6** Delivering strong budgets.

Building infrastructure

SP₂

- 2.1 Improving road travel reliability
- 2.2 Increasing housing supply.

Protecting the vulnerable

SP3

- 3.1 Transitioning to the National Disability Insurance Scheme
- **3.2** Creating sustainable social housing.

Better Services

SP4

- **4.1** Improving Aboriginal education outcomes
- **4.2** Better government digital services
- **4.3** Cutting wait times for planned surgeries
- 4.4 Increasing cultural participation
- **4.5** Ensure ontime running for public transport.

Safer communities

SP5

- **5.1** Reducing violent crime
- **5.2** Reducing adult re-offending
- **5.3** Reducing road fatalities.

In preparing our Delivery Program and Operational Plan consideration is also given to the NSW North Coast Regional Plan 2036.

For a full list of all documents that inform our Delivery Program and Operational Plan, refer to Section 5 of our Community Strategic Plan.

senior staff and organisation structure

4. our executive team + organisation structure

Councillors adopt an organisation structure that supports the position of General Manager in implementing the Strategies and Actions identified in the Delivery Program and Operational Plan. The adopted structure is as follows:

General Manager
Paul Hickey

Director Kelly Brown

Corporate and Community Division

Community Facilities

People and Culture

Information Services

Communications

Commercial Services

Financial Services

Governance

Director John Truman

Civil Services
Division

Infrastructure Planning

Engineering Works

Support Operations

Open Spaces

Resource Recovery

Water and Wastewater

Director Matthew Wood

Planning and Environmental Health Division

Strategic Planning

Building Services

Development Services

Environmental and Public
Health

heading in the right direction

Council has developed the Delivery Program and Operational Plan to achieve the Directions and Outcomes identified in our Community Strategic Plan.

- 1. Connected Community
- 2. Prosperous Economy
- 3. Healthy Environment
- 4. Engaged Leadership

This section provides details of the major Delivery Program Strategies, including the Operational Plan Actions, scheduled for the next four years.

Our success in achieving the Actions identified for 2020/2021 will be reported to Council on a quarterly basis - in October, January, April and July.

Delivery Program Strategy	The benefits will be		Operational Plan Activity	Measures/Targets	20/21	21/22	22/23	23/24	Responsibility	Link to State Plan
CSP OUTCOME CO	1. WE FEEL SAFE									
CC1.1 Actively promote safety and wellbeing	Lower crime rates	CC1.1.a	Implement Council's Road Safety Plan to maximise road safety awareness	Programs delivered and effectiveness	Х	Х	х	х	Infrastructure Planning	SP5
strategies	Increased compliance through proactive programs	CC1.1b	Ensure the Road Safety Strategy remains contemporary	Review completed	Х				Infrastructure Planning	SP5
		CC1.1c	Implement NSW State Government Pool Barrier Inspection Program	Increase level of compliance	Х	х	х	х	Development Services	SP5
		CC1.1d	Provide timely responses to barking dog complaints	100% of barking dog complaints responded to within seven days	Х	Х	х	х	Public and Environmental Health	SP5
		CC1.1e	Provide rapid responses to reported dog attacks	100% of reported attacks responded to within 48 hours	Х	Х	х	х	Public and Environmental Health	SP5
CC1.2 Ensure relevant public health and	Higher levels of compliance	CC1.2a	Implement proactive infrastructure asset inspection and condition assessment programs	Level of contemporary information and inspections undertaken	Х	Х	х	х	Infrastructure Planning	SP2
safety standards are being met	Improved public health Increased public	CC1.2b	Minimise the number of unplanned water supply interruptions greater than four hours in duration (#)	Number of interruptions (Target = Nil)	Х	х	x	x	Water and Wastewater	SP2
	safety Proactive risk management	CC1.2c	Ensure fire hydrants are functional	Fire hydrants inspected (Target > 50% p.a.)	Х	Х	х	х	Water and Wastewater	SP5

capital expenditure

6. capital expenditure

This section outlines the capital expenditure planned for the four year period from 2020/21 to 2023/24.

Description		2020/21 (\$)	2021/22 (\$)	2022/23 (\$)	2023/24 (\$)
Ballina Byron Gateway Airport	t	4,405,000	24,000,000	5,900,000	6,600,000
Apron Overlay and Concrete Page	ds			400,000	400,000
Car Park, Solar, Boulevard Conr	nection	2,000,000			
Crown Land and Revetment Wa	II				100,000
Checked Baggage Screening				500,000	400,000
Passenger Screening		405,000			
Drainage					300,000
Runway Widening		2,000,000	24,000,000		
Runway End Safety Area (RESA	A)			5,000,000	5,000,000
Runway Lighting, Testing					400,000
Community Facilities		2,089,000	500,000	591,000	526,000
Ballina Surf Club	Floors, AC, Hot Water			78,000	
Ballina Surf Club	Dividing Wall				40,000
Ballina Surf Club	Storage Building Rolla do	ors			16,000
Kentwell Centre	Refurbishment			220,000	
Kentwell Centre	AC Unit Replacements	72,000			
ALEC	External / Internal Mods	460,000	220,000		
Lennox Head Community Centre	e Refurbishment	920,000			
Library / VIC / Richmond Room	Amenities				220,000
Lennox Head Library	Carpet / Painting				60,000
Lennox Head CWA	Kitchen / Sheeting				40,000
Wardell Hall	Roof				40,000
Wollongbar Hall	Roof				50,000
Pimlico Hall	Upgrade	50,000	280,000		20,000
Wardell Hall	Repairs	20,000			
Ballina Library	Amenities and Foyer			120,000	
Richmond Room	Amenities and Foyer			95,000	
32 Swift Street					40,000
Halls - Various	Repairs / Repaint	167,000		78,000	
Alstonville Swimming Pool	Amenities	400,000			
Commercial Property Manager	ment	4,460,000	21,000	22,000	23,000
Wollongbar Urban Expansion Ar	ea – Stage Three	4,400,000			
Shelly Beach Café		40,000			
Flat Rock Tent Park		20,000	21,000	22,000	23,000
Public and Environmental Hea	ilth	914,500	394,000	643,000	0
Shaws Bay Coastal Managemer	nt Program including dredgi	ng 894,500			
Lake Ainsworth Coastal Manage	ment Plan		394,000	643,000	
Ranger Equipment		20,000			

Description	2020/21 (\$)	2021/22 (\$)	2022/23 (\$)	2023/24 (\$)
Public Amenities	160,000	180,000	185,000	190,000
Wardell	160,000			
Main Beach, Lennox Head	,	180,000		
Moon Street, Ballina			185,000	
Commemoration Park, Ballina				190,000
Depot Facilities and Administration Centre	924,000	187,000	192,000	197,000
Depot and Administration Centre – Solar	210,000			
Workshop Roof Replacement	182,000			
Workshop Welders Bay – Stage 1	317,000			
Open Spaces Storage Area – Stage A and B	120,000			
Workshop Welders Bay – Stage 2	95,000			
Engineering Works / Hardstand	,	187,000		
Trades and OSR Roof Replacement		,	192,000	
Store Roof Replacement			- ,	197,000

Barlows Road – In addition to the road projects listed, Council is also investigating the formalization of Barlows Road, along the existing road reserve, from Barlows Road (south Ballina) to Flathead Lane (north Ballina) as a possible connection road to bypass Ballina Island. A report on the merits and cost of this project will be presented to Council during the financial year and if this project proceeds it may result in other works listed being deferred.

staff resources

7. staff resources

The elected Council approves the allocation of staff resources to support the implementation of the Delivery Program and Operational Plan. The following table provides the staffing resources available for recent years and predicted figures for future years. The numbers are based on equivalent full-time employment (EFTs) and include permanent full-time and part-time staff. The total estimated salaries and wages, including associated overheads such as superannuation, workers compensation and leave entitlements, for 2020/21 is approximately \$27 million.

These figures exclude trainees and apprentices and represent permanent positions only. At the time of preparing this information, Council has 19 trainees and apprentices. The positions vary from school based part-time to full time positions.

Refer to our Workforce Management Plan for further detail on Council's workforce planning for the next four years.

PART B

operational plan

Whereas the Delivery Program element of this document has a focus on a four year period, the Operational Plan outlines the activities to be undertaken for one year, which in the case of this document is 2020/2021.

In respect to the key activities and the measures that we will be using to assess our performance, the 2020/21 column in the "Heading in the Right Direction" of the Delivery Program lists all the agreed activities and measures.

Similarly the Capital Expenditure section of the Delivery Program also identifies the major capital expenditure projects planned for 2020/21.

The balance of the Operational Plan component of this document, as follows, includes the mandatory elements as specified in the NSW Local Government Act, along with other items of interest.

Briefly the remaining elements of this document are as follows:

- Estimated Income Statements The Income Statement is the primary indicator of how Council is performing financially, on an annual basis, and this section provides the estimated income statement for 2020/21.
- Long Term Financial Plan Even though the Operational Plan focuses on one year, it is important to have an understanding of how Council's finances are trending in the longer term. This section provides a summary of Council's ten-year financial plan.
- Program Operating Results Council delivers a wide range of services and to understand the net cost, or surplus, generated of each service, this section provides an operating result for each program.
- Distribution of General Purpose Rate
 Income Many Council delivered programs operate at a net cost to the community and this page provides a useful overview of how the ordinary rates raised from an average residential property are distributed across the various loss making programs.

Statement of Revenue Policy – This
 statement provides a summary of the various
 rates and charges that Council will levy during
 2020/21. It provides details of the rating
 structure along with information on the major
 charges such as water, waste and wastewater.

Other mandatory items included are the pricing methodology Council has adopted in preparing its fees and charges for 2020/21, along with details of the proposed loan borrowings.

- Related Policies and Information This final section of the Operational Plan provides details on a number of miscellaneous items such as Council's Donation Programs and our Commercial Activities.
- Appendices The appendices to the Operational Plan provide a map outlining where waste collection charges are levied each year.

income statement

8. income statement for 2020/21

Council's Annual Financial Statements are prepared in accordance with Australian Accounting Standards and the NSW Local Government Act.

The key financial statement that measures the performance of Council on an annual basis is the Income Statement. To ensure long term financial sustainability Council needs to be aiming for a net operating surplus within the Income Statement, once Capital Grants and Contributions provided for Capital Purposes are eliminated.

Revenues from Water and Wastewater Operations must be expended on those activities. This means it is necessary to record those areas of Council's operations as separate funds and the remaining operations of Council are referred to as the General Fund.

The following figures provide the forecast Income Statements for the three funds operated by Council in accordance with Note 23 of the Annual Financial Statements, as well as on a consolidated basis.

Description	General	Water	Wastewater	Consolidated
Income from Continuing Operations				
Rates and Annual Charges	33,285	3,899	18,115	55,298
User Charges and Fees	13,655	9,050	1,791	24,496
Interest and Investment Revenues	1,275	469	164	1,908
Other Revenues	8,357	0	372	8,729
Operating Grants and Contributions	8,489	240	160	8,889
Capital Grants and Contributions	17,666	1,558	2,280	21,505
Sub Total	82,727	15,216	22,882	120,825
Other Income	,	ŕ	,	,
Net Gain from Disposal of Assets	0	0	0	0
Total Income from Continuing Operations	82,727	15,216	22,882	120,825
Expenses from Continuing Operations				
Employee Benefits and On-Costs	19,799	2,358	4,456	26,613
Materials and Contracts	27,680	8,275	4,407	40,362
Borrowing Costs	1,299	0	3,199	4,498
Depreciation and Amortisation	15,362	1,570	3,750	20,682
Other Expenses	5,242	635	1,322	7,199
Net Loss from Disposal of Assets	0	0	0	0
Total Expense from Continuing Operations	69,382	12,838	17,134	99,354
Operating Result from Continuing Operations	13,345	2,378	5,748	21,471
Net Operating Result before Capital Grants and Contributions Provided for Capital Purposes	(4,321)	820	3,468	(33)

Council is forecasting operating surpluses for Water and Wastewater and a deficit for the General Fund.

Council is also forecasting a deficit on a consolidated basis.

For the General Fund, the COVID-19 impacts have resulted in a significant deterioration in the forecast operating result.

Efforts will be made during 2020/21 to reduce or defer operating expenses to assist Council through this difficult period.

Council's ten year Long Term Financial Plan is outlined on the following page.

long term financial plan

9. long term financial plan

Council's long term financial plan (LTFP), based on a ten year time frame, has a preferred target of achieving an operating surplus on a consolidated basis and for the General Fund. Council achieves this result on a consolidated basis for 2021/22 onwards, whereas the General Fund achieves an operating result for 2022/23 onwards. The LTFP is based on the IPART approved rate peg of 2.6% in 2020/21. A summary of our LTFP is as per the following table.

Our Ten Year Plan to Financial Sustainability - Consolidated Result

ltem	2020/21 ('000)	2021/22 ('000)	2022/23 ('000)	2023/24 ('000)	2024/25 ('000)	2025/26 ('000)	2026/27 ('000)	2027/28 ('000)	2028/29 ('000)	2029/30 ('000)

As per this table the General Fund is forecast to generate operating surpluses from 2022/23 as Council anticipates it will take two to three years to recover from the COVID-19 pandemic economic downturn.

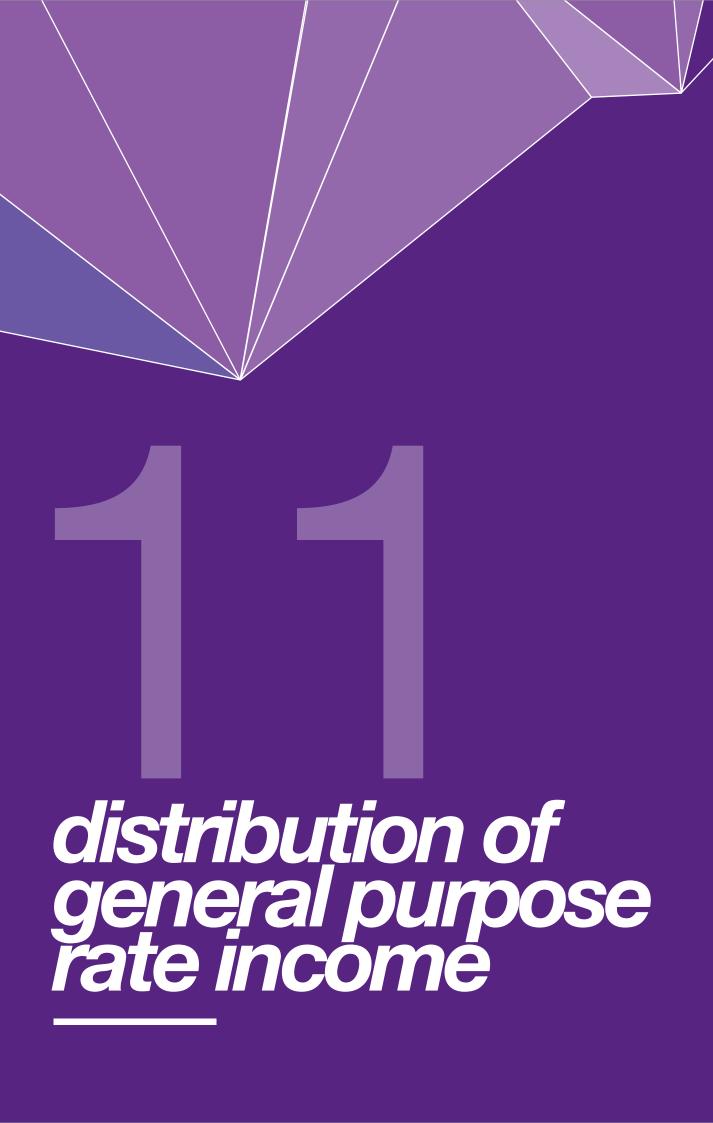

operating results 2020/2021

10. operating results 2020/2021

In addition to our Income Statement, which is formatted in accordance with Australian Accounting Standards, it is important for Council to understand the annual operating results for the programs and services delivered to the community.

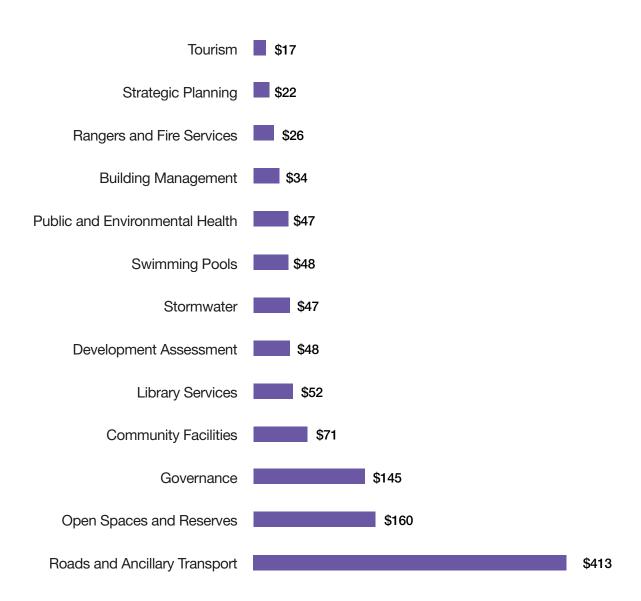

The following figures represent the forecast operating result for the 2020/21 financial year, with the information provided on a program basis.

Item	Operating	Operating	Operating

11. distribution of general purpose rate income

Council provides a number of services from within the General Fund, the majority of which are subsidised by the income collected from general purpose rates. The remaining programs are self-funded and include fleet and plant; airport; waste management and Council's property portfolio. This chart illustrates how the average residential rate for 2020/21 of \$1,130 is allocated across the subsidised programs.

revenue policy

12. revenue policy

General Rate - Rating Structure

Council's rating structure incorporates a base amount and a rate in the dollar.

Council is of the opinion that a base amount is the most equitable rating system, as it reduces the impact of land values in calculating rates, and results in a more even spread of the rate burden.

The base amount is a flat charge that is raised equally against all properties in each rating category.

All properties in the shire are categorised based upon the dominant use of the land with the categories allowed under the NSW Local Government Act being residential, business, farmland or mining. Council has no properties categorised as mining.

The base amount in the residential category is set to raise 50% to the total rate yield for that category. The remainder of the yield for that category is based on the land value multiplied by a rate in the dollar.

The base charge for business and farmland categories is set at the same dollar value as the residential base charge.

This means that in these two categories the base charge raises less than 50% of the yield as the average land value is higher in business and farmland as compared to the residential category.

It is accepted that land value plays the more dominant role in the rate calculation in business and farmland categories because these properties tend to be income producing.

Increases in a council's rate income are determined on a percentage basis by the Independent Pricing and Regulatory Tribunal (IPART). This is referred to as the rate peg limit.

For 2020/21 IPART approved a rate peg of 2.6%.

The following table provides the estimated total rate income for 2020/21.

Estimated Income from Ordinary Rates for 2020/21

Base Charge and Cents in the Dollar								
Rate Category	Rate (Cents In \$)	Base Amount (\$)	Category Yield (\$)	Proportional Contribution to Total Yield (%)				
Residential	0.15347	564	18,939,474	74.04				
Business	0.72250	564	4,950,805	19.35				
Farmland	0.12708	564	1,691,743	6.61				
Mining	0.72250	564	0	0.00				
Totals		N/A	25,582,022	100.00%				

In respect to the proportional contribution to the total yield between business / farmland / residential properties, Council policy is to raise approximately 20% of the total yield from non-residential (business) properties.

However for 2020/21 the percentage is 19.35% as Council is aiming to reduce the cents in the dollar differential for business properties, as compared to residential properties, over a period of time.

The differential for farmland compared to residential is based on historical figures following the deduction of the business property yield. Council does not have differential rates within rating categories.

Charges Structure

In accordance with the NSW Local Government Act, Council is able to raise a charge for the provision of waste, water, wastewater and stormwater services.

The charges levied by Council in relation to these items are as follows:

Waste Charges

Council levies a range of annual waste charges to finance the operation of the Ballina landfill along with the collection and disposal of kerbside waste.

The various charges levied to the different categories of properties are described on the following pages.

Waste Management – Urban Domestic (Residential) Properties

Council levies an annual domestic waste collection charge of \$407 (2019/20: \$393) per self-contained occupancy, on all urban residential properties, where the service is available. This service includes a fortnightly kerbside recycling collection service, a fortnightly mixed waste service and a weekly organics collection service. This annual charge is payable whether or not the service is used.

Urban properties generally include parcels of land within townships, villages or built up rural residential estates where low speed limits are applied.

Non-strata titled residential units/flats are levied the annual domestic waste collection charge of \$407 (2019/20: \$393), dependent upon the number of units/flats or rural dwellings contained upon the property.

For example a non-strata titled multiple occupancy property containing four units/flats will be subject to a total charge of \$1,628 (\$407 multiplied by four services). Appendix A to this document provides a map outlining all the eligible urban properties for this service.

A new charge, Domestic Waste Exempt Collection Service, has been introduced for 2020/21. This charge, \$44.50, is equivalent to the Vacant Land Domestic Waste Collection charge. This fee is to apply for properties that are occupied and for which a domestic waste management service is available, but where Council has decided not to provide a collection service. This may occur, for example, for safety or physical limitations of the property. This fee would also apply to multi-unit dwellings approved by Council to utilise an alternative arrangement.

Waste Management - Rural Domestic (Residential) Properties

As per urban residential properties, Council charges an annual domestic waste collection charge, per self-contained occupancy, on all rural residential properties, where the service is available. The charge per annum is \$355 (2019/20: \$343). The service includes a weekly mixed waste and fortnightly recycled waste kerbside collection service. This annual charge is payable whether or not the service is used.

Waste Management - Vacant Domestic (Residential) Land

This waste charge is mandatory for each residential parcel of vacant rateable land, for which the service is available. Properties are charged \$44.50 (2019/20: \$43) per annum.

Additional Domestic (Residential) Services

Additional services are available for the following extra annual charges:

- Additional Mixed Waste Urban (Fortnightly) \$122 (2019/20: \$118) per annum
- Additional Mixed Waste Rural (Weekly) \$242 (2019/20: \$234) per annum
- Additional Domestic Recycling Urban and Rural (Fortnightly) \$112 (2019/20: \$118) per annum
- Additional Organics Waste Collection Urban (Weekly) \$242 (2019/20: \$234) per annum

Waste Management – Non-Domestic (Non-Residential) Properties

Council offers a weekly mixed waste collection service at an annual charge of \$379 (2019/20: \$366) for non-domestic (i.e. commercial, business) properties.

Non-domestic properties can also elect to receive a fortnightly recycling collection service at an annual cost of \$187 (2019/20: \$181) and a weekly organics waste collection service at an annual cost of \$330 (2019/20: \$319). Additional services are available at the same cost per service as the first collection.

Summary of Waste Charges and Net Estimated Yield for 2020/21

Type of Charge	Frequency	Number	Annual Charge (\$)	Yield (\$)
Domestic Waste Collection Charge – Urban	Weekly	15,671	407	6,378,000
Domestic Waste Collection Charge – Rural	Weekly	2,755	355	978,000
Domestic Waste Charge – Vacant Land	N/A	621	44.50	27,600
Domestic Waste Collection Charge - Other	Various	Various	Various	14,400
Waste Management - Non-Domestic Properties	Various	Various	Various	624,000
Total				8,022,000

Water Charges

Council's policy is to charge for water through a structure that encourages water users to conserve water. Charges are set to provide sufficient funds to operate, maintain and renew a water supply system and to minimise the use of loan funds for new capital works.

As per the NSW Local Government Act, charges are levied upon land that is supplied with water from Council mains, and vacant land situated within 225 metres of a Council water main, whether or not the property is connected to Council's water supply, provided it is possible to supply water to the property, if requested.

The water charging structure is made up of two tiers, a fixed annual access charge for all properties and a consumption charge based on actual water consumed. A small amount of revenue is generated from fire services.

Water Access Charge (Annual Fixed Charge)

Charges will be made as listed, except for parcels of land exempt from the charge under Section 552 of the *Local Government Act 1993* (i.e. land unable to be connected to a Council water pipe or land further than 225 metres from a Council water pipe).

- (a) For single residential dwellings and strata titled properties One access charge per annum for each separate rateable assessment. The charge increases with meter size (as per following table below). The charge levied on strata titled properties shall be as per the charge for a standard 20mm service for each strata unit.
- (b) For multiple occupancy dwellings (flats) Each unit / tenement will be charged the 20mm water access charge.
- (c) Each parcel of separately valued vacant land to be levied the equivalent of one 20mm service access charge (Section 501(3) Local Government Act 1993).
- (d) Water meters are read and accounts payable on a quarterly basis. Non-residential customers have their access charge levied quarterly. Residential charges are levied annually and the customer can choose to pay by quarterly instalments.

Water access charges are levied based on financial quarters in advance (i.e. 1 July to 30 September, 1 October to 31 December, 1 January to 31 March and 1 April to 30 June).

Water meters are read and accounts payable on a quarterly basis. Non-residential customers have their access charge levied quarterly. Residential charges are levied annually and the customer can choose to pay by quarterly instalments.

Summary of Water Charges for 2020/21

Service	Residential Number	Annual Charge (\$)	Estimated Yield
Water Access Charge – 20mm Service	16,364	209	3,420,100
Water Access Charge – 25mm Service	52	326	17,000
Water Access Charge – 32mm Service	13	534	6,900
Water Access Charge – 40mm Service	2	837	1,700
Water Access Charge – 50mm Service	1	1,306	1,300
Water Access Charge – 65mm Service	0	2,208	0
Water Access Charge – 80mm Service	0	3,354	0
Water Access Charge – 100mm Service	0	5,231	0
Water Access Charge – 150mm Service	0	11,767	0
Water Access Charge – 200mm Service	0	20,920	0
Total			3,447,000

Summary of Net Estimated Yield for Water Access Charges for 2020/21

Service	Estimated Yield (\$)
Residential Water Access Charges	3,447,000
Non-Residential Water Access Charges	745,000
Total	4,192,000

70

Water Consumption Charges

Water consumption charges are levied based on financial quarters in arrears (i.e. 1 July to 30 September, 1 October to 31 December, 1 January to 31 March and 1 April to 30 June).

Water consumed per separate water meter will be charged at \$2.35 per kilolitre for the first 350 kilolitres of water consumed and \$3.53 per kilolitre for water consumed in excess of 350 kilolitres. The estimated income from consumption is approximately \$8.3 million. Water consumption charges are levied based on the date the water meter is read.

Strata Units - Water Consumption charges

Strata developments, where individual units are not separately metered by a Council owned water meter, will have all water consumption charges levied on the "Owners Corporation" of the Strata Plan. Refer to Council's Schedule of Fees and Charges for the charging structure.

The number of water access charges levied on the whole strata complex (i.e. each individual lot), determines the level of water consumption charged at the first step rate. For example a complex with four strata units will be levied four 20mm access charges and be entitled to consume 1,400 kilolitres at \$2.35 per kilolitre prior to paying for water at the higher tariff of \$3.53 per kilolitre. Strata units separately metered by a Council connected meter will receive individual water accounts (for both access and consumption charges).

Flats

Flats are a non strata unit development with common ownership and are considered as a single rateable assessment under the Local Government Act. As Council now charges an access charge based on occupancy / tenement, each flat assessment will receive a 350 kilolitre allowance at the step 1 tariff for each / occupancy tenement on the property. (See explanation above for Strata Units).

Rous County Council Water Supply

Water charges do not apply to those consumers who are connected to and serviced by Rous County Council.

Home Dialysis Customer Allowance

A water consumption allowance of 100 kilolitres per annum (at 25 kilolitres per quarter) is provided to customers that utilise home dialysis treatment (as advised by the local area health service). Water consumption above the allowance is charged at normal rates.

Wastewater Charges

Council's policy is to levy charges across all sewered areas of the shire, at a level sufficient to provide funds to operate, maintain and renew the wastewater (sewer) system, to re-pay existing loans and to generate additional reserves to minimise the impact of any major capital expenditure. Wastewater charges for non-residential properties are based on the volume of water consumed and the water meter size. Wastewater charges for residential properties relate to averaged meter sizes and water consumption producing a standard annual wastewater charge for all residential tenements.

Wastewater charges are levied upon land that is connected to Council's sewer mains, and vacant land situated within 75 metres of a Council sewer main, whether or not the property is connected, provided it is possible for the land to be serviced if requested.

Residential Properties and Vacant Land

Each self-contained occupancy (i.e. unit/flat/dwelling) on a rateable property will be levied an annual charge of \$1,027 as will each separate strata titled residential unit/flat. Non-strata titled residential unit/flat properties will be levied an annual charge of \$1,027 dependent upon the number of units/flats contained in the property. Vacant land will be levied an annual charge of \$775.

Non-residential Properties

Charges for non-residential properties will be based on a combination of water meter size and water consumption. These factors are placed into a formula that also includes a sewerage discharge factor (SDF). The SDF is the estimated percentage of total water consumption that is returned to the sewer system. The formula used to calculate the annual account is in accord with the best practice guidelines issued by the NSW Office of Water.

The formula is as follows: SDF x (AC+ C x UC)

Where: SDF = Sewerage discharge factor

AC = Annual Non-residential Wastewater access charge based on water meter size

C = Water consumption measured in kilolitres

UC = Sewerage usage charge per kilolitre = \$2.61/kL

Non-Residential Strata Units and Flats (not individually metered by Council)

Volumetric wastewater consumption charges for non-residential units and flats will be levied on the Owner's Corporation of a strata complex or the owner of the property as the case may be.

Recycled Water

Some properties in the Shire are connected to the urban dual reticulation scheme (recycled water). This water is suitable to flush toilets, wash clothes, water garden plants, wash cars and pathways.

Council has resolved to charge a consumption charge only for this water and this charge is to be 80% of the first step of the potable water charge; i.e. 80% of \$2.35 is \$1.88/kl. In addition to this, for designated users of bulk recycled water for open space purposes (i.e. Golf Club, Racecourse) Council resolved from July 2017 to provide this service at 2.5% of the potable water rate and move towards the proposed rate of 10% of the potable water price by July 2020. For 2020/20 the charge will be 10.0% of the potable price.

A summary of the annual wastewater charges and estimated yield is in the following table:

Summary of Wastewater Charges for 2020/21

Wastewater Charge Category	Charge (\$)
Vacant Charge	775
Residential Charge	1,027
Non Residential Charge:-	
20mm Water Service	775
25mm Water Service	1,211
32mm Water Service	1,985
40mm Water Service	3,104
50mm Water Service	4,840
65mm Water Service	8,179
80mm Water Service	12,388
100mm Water Service	19,355
150mm Water Service	43,548
200mm Water Service	77,426
Recycled Water	N/A

Summary of Net Estimated Yield for Wastewater Charges for 2020/21

Service	Number	Annual Charge (\$)	Estimated Yield (\$)
Residential	15,707	1,027	16,130,000
Residential – not connected/vacant land	541	775	419,000
Non-Residential Access		As per formula	2,039,000
Non-Residential Usage		As per formula	1,220,000
Recycled Water Usage – Residential			325,000
Recycled Water Usage – Non-Residential			15,000
Total			20,148,000

On-site Sewage Management (OSSM) Fee

This fee is raised on properties with an on-site sewage system in place (e.g. septic tank) in accordance with section 608(2) of the Local Government Act. The fee is as follows and the revenue generated funds an inspection program, general advice we provide to owners, and replaces the need for periodic renewal of approval fees.

Summary of OSSM Charge and Net Estimated Yield for 2020/21

Property Type	Number	Annual Charge (\$)	Estimated Yield (\$)
Per eligible property	2,538	65	165,000

Stormwater Charges

This charge is raised on developed urban properties and Council has resolved to charge the maximum allowable stormwater management service charge on both residential and non-residential properties.

The charges and estimated yield are as follows:

Summary of Stormwater Charges and Net Estimated Yield for 2020/21

Property Type	Number	Annual Charge (\$)	Estimated Yield (\$)
Per residential property	9,310	25.00	233,000
Per business property	3,778	Based on impervious area @ \$25 per 350 square metre	94,000
Per residential strata lot	4,515	12.50	56,000
Per business strata lot	7,715	Based on impervious area @ \$12.50	9,000
Total			392,000

Stormwater charges for business properties are based on the impervious area of the land. The charge is \$25 per 350m² or part thereof. In respect to business strata units the appropriate business charge is apportioned based on unit entitlement subject to each unit paying a minimum of \$5.

Pensioner Concessions

Concessions are available to eligible pensioners who are solely or jointly liable for the payment of rates and charges and reside at the property. These rebates are as follows:

- 50% of the combined rates and domestic waste management charges up to a \$250 maximum concession
- 50% of water access and consumption charges up to a \$87.50 maximum concession
- 50% of wastewater (sewer) charges up to a \$87.50 maximum concession

Fees

Section 608 of the NSW Local Government Act permits fees to be charged for services provided by Council. Council has adopted the following pricing categories in establishing its fees.

Category	Methodology
Business / Commercial	Prices are established in accordance with the prevailing market
Full Cost Recovery	Fee set to recover the full cost to provide the service
Partial Cost Recovery	Fee set to provide services to the community at an affordable cost, the balance being met from general revenue
Fixed by Legislation	Fee set by legislation

The details of each Council fee are set out in full in Council's Schedule of Fees and Charges. A copy of this document is available for inspection at Council's Customer Service Centre or on our website.

Private Works

The Local Government Act allows Council to carry out private works on a fee for service basis.

Council will generate a surplus on these works and the surplus will be added to the following rates - Labour plus 72.5%; Materials plus 15%; Plant hire at rates set by Council

New Loan Borrowings

Council intends to borrow as follows for 2020/21:

- \$2 million for improvements to the Ballina Byron Gateway Airport
- \$1 million for Airport Runway Widening and Strengthening
- \$4.4 million for the Wollongbar Urban Expansion Area Stage Three
- \$0.5 million for Plant and Equipment Rollers
- \$3.0 million for construction of the Airport Boulevard Road.

Dividends

The Local Government Act allows councils to take a dividend from the Water and Wastewater Programs. The Act allows a compulsory and a non-compulsory dividend. A compulsory dividend is payable to General Fund, being the lesser of the 'calculated tax equivalent' payments or \$3 per assessment.

Council calculates tax equivalent payments when preparing the Special Purpose Financial reports, at the end of each year. They relate to taxes, excluding company tax, from which Council business activities are exempt. Typically, this refers to stamp duty and land tax.

The Long Term Financial Plan includes compulsory dividends of \$33,600 from water and \$43,000 from wastewater.

Council may extract a non-compulsory dividend from both the Water and Wastewater Programs.

To do this it is required that Council substantially complies with the 'best practice' guidelines provided by the State Government.

In terms of meeting the criteria to be eligible for a non-compulsory dividend, Council complies with the best practice guidelines however; it is not intended to take a non-compulsory dividend.

Water is not sufficiently profitable to provide a dividend as Rous County Council is planning for a number of bulk water price increases above the CPI.

For Wastewater all available funds are required to meet loan commitments and maintain reserves.

Other Section 404 Requirements

In accordance with Section 404 of the NSW Local Government Act Council has determined that there are no other matters prescribed by regulation that require a statement to be included in Council's Revenue Policy.

related policies and information

13. related policies and information

Sale of Assets

Plant and Equipment

Plant and equipment to be disposed of or replaced has either reached the end of its economic life or is no longer required for Council's operations.

Motor Vehicles

Council's sedan type vehicles are traded at the time considered the most economically viable, taking into account age, kilometres travelled, changeover costs and market demands.

Land

Council holds areas of industrial and residential land. If any land is to be sold a resolution will be obtained from Council prior to sale.

Commercial Activities and Competitive Neutrality

The following activities undertaken by Council are considered to be of a commercial nature:

Category One Businesses (Turnover greater than \$2 million)

Category Two Businesses (Turnover less than \$2 million)

Water Services
Wastewater Services
Waste Management
Airport

Land Development

In accordance with National Competition Policy guidelines, Council has included into its costing processes, all direct and indirect costs, plus taxes that a private sector operator would face in the operation of a similar business. These taxes are known as taxation equivalent payments (TEP's), and are based on items such as land tax and company tax.

For Water and Wastewater operations Council has adopted a target rate of return of 0%. However it is acknowledged that operating expenses for Water and Wastewater incorporate the payment of a dividend to General Fund. For other commercial activities the target rate of return is the Commonwealth ten year bond rate.

Council has a procedure designed to effectively manage competitive neutrality complaints. This type of complaint refers to instances whereby an actual or potential competitor of a Council business believes that it is being adversely affected through Council's failure to adopt competitive neutrality.

For enquiries relating to Commercial Activities and Competitive Neutrality contact the Commercial Services Unit, or our Manager Financial Services.

Council's Training Plan

Council's Training Plan aims to encourage and assist all staff to develop a level of knowledge, skill and competency essential to the effective and efficient operation of the organisation. It also aims to offer individual staff opportunities for career and personal development.

Equal Employment Opportunity (EEO)

Council's EEO Management Plan identifies activities to be undertaken to ensure implementation of Council's EEO Policy. Council last reviewed and amended the EEO Policy and Plan in April 2017.

These documents have been prepared in accordance with the Anti-Discrimination Act 1977 and the Local Government Act 1993, and reinforce Council's commitment to EEO, fair treatment and non-discrimination for all existing and future employees.

The EEO Policy and Plan can be viewed on Council's website. For specific enquiries relating to EEO contact the Human Resources Section.

Financial Assistance - Section 356 of the Local Government Act

Council has various financial assistance programs in place. These programs are outlined in the following policies:

- Donations Assistance with Council Fees for Community Groups
- Donations Australian Representation
- Donations Community Sporting Groups Capital Works Assistance
- Donations Financial Assistance for Community Groups
- Donations Insurance for Environmental Volunteer Groups
- · Donations Rates and Charges
- Donations Waste Disposal Fees for Not for Profit Groups
- Donations Waste Disposal for Not for Profit Disposal of Feral, Orphan Animals and Native Fauna

For details as to how this financial assistance is provided, refer to the relevant policy documents on Council's website. Council is also providing open space maintenance services to the Wardell Sports Ground and Alstonville Showground due to the high public use of these facilities.

Detailed Estimates of Council's Detailed Estimates of Council's Income and Expenditure

Council also prepares a separate document, titled the Long Term Financial Plan, which provides a more detailed outline of the income and expenditure estimates over a ten year period. That document is also available on our website under the Our Community Our Future quick links tab.

Copies are also available upon request from Council's Customer Service Centre.

Local Government Remuneration Tribunal

Section 248 of the Local Government Act requires a council to set an annual fee for payment to the Councillors for acting in their role as a Councillor. The Mayor is also paid an additional fee as Mayor.

The maximum fee payable is determined each year by the Local Government Remuneration Tribunal and Council practice is to adopt the maximum fee. This notification confirms that by adopting the Delivery Program and Operational Plan Council is adopting the maximum fee for the Councillor and Mayoral allowance as determined by the Local Government Remuneration Tribunal.

Agency Information Guide - Government Information (Public Access) Act 2019
